Alan Colmes, co-host of the top-rated **Fox News** show "Hannity and Colmes" will provide the Saturday (7/19) Keynote presentation at the 2003 Conclave: "The Future Ain't What It Used To Be" at the Minneapolis Marriott City Center! Colmes will make his keynote presentation at a time when his Fox News show continues to lead all other cable news programs while representing the smallest of minorities on the news/talk radio-TV circuit: a liberal host! The Colmes story: Alan got his start in radio covering the controversial Iran hostage crisis, and quickly graduated to WABC/New York as an overnight host. Within 2 years, he chaired morning drive. In 1988, he segued to WNBC's PM drive post, allowing him to grill the likes of **George Bush**, **Gloria Steinem**, **Jay Leno**...and **Jessica Hahn**, in the middle of the **Jim Bakker** scandal! In 1990, he helped form **Daynet**, the highly successful talk radio organization. In 1996, Fox News tapped Colmes to co-host the channel's prime time debate show with **Sean Hannity**. Since then, "Hannity and Colmes" has become one of the most watched programs on cable television! And Colmes has become the leading liberal amidst a sea of right-wing talk show hosts, tackling high profile celebrity guests on explosive topics like cult programming, U.S. foreign policy, and first amendment rights! He now hosts his own syndicated radio show on the **Fox News Radio Network**. But you won't be able to hear this "professional dragon slayer" in an exclusive presentation at the 28th Annual Conclave Learning Conference unless you register NOW at the earlybird rate of \$299...an offer that will be expiring soon. More Conclave details are available at www.theconclave.com!

How much does South Dakota native and newest FCC member **Jonathan Adelstein** care about whether the public is fully informed about proposed rule changes for radio? So much so that he wrote an Op-Ed piece for the *San Francisco Chronicle* last week – an article entitled, *FCC Rules of the Game* - informing readers of what's before the Commission. Stating that it may be "almost too late now" for anyone to weigh in on the subject, he warns that "some say media consolidation would simply echo a nationwide business trend. But media do not compare with other goods. The structure of the media affects more than just the price of ketchup. Control of the media affects the vibrancy of political and civic discourse — what the U.S. Supreme Court has called the 'uninhibited marketplace of ideas.' This market affects the very health of our democracy." He takes radio and TV to task for being silent on the issue. Says Adelstein, "Did you know this was happening? Have you heard about it on national or local news? Time is short. Don't let the national dialogue fall short." For the complete text of his article, check out the Forum page of www.main-st.net.

He was one of only five musicians hand picked by Paul to work with him on a one-to-one basis. He's directed videos for artists like **Tenacious D** and **Foo Fighters**. And he is currently writing and directing the new Tenacious D full-length feature for **Ben Stiller**. His "**United States of Whatever**" leaked its way onto radio request charts when fans burned it from a commercial import out of the UK, where it was a Top 10 hit last year. On your desk on Monday will be the debut single from singer-songwriter **Layne Larson**, "Wait For Me." She's creating quite a buzz with three before-the-box adds at KELO, KKRL, and KVHT. Says KELO PD Alan Helgeson, "This is nothing but AC radio GOLD! The song appeals to so many who are touched by the absence of loved ones who fought in the Iraq war...or just anyone who is separated by distance. Our listeners are eating it up!" Enough said. **Stockinrock**

Here's a question we don't want you to take personally: Are you getting yours each week?
