The intersection of radio & music since 1974  
Tom Kay - Chris Mozena - Brad Savage

**Bob Coburn**, one of radio's most popular syndicated radio personalities and long-time host of Rockline, will moderate this year's Rock Symposium, "What Is Rock, Anyway?" at the 2003 Conclave Learning Conference: The Future Ain't What It Used To Be! next Friday afternoon, July 18 at the Marriott City Center in Minneapolis. As the "rock" format has splintered into ever-smaller fragments, each fragment has developed a tighter definition of the music that "fits." Alternative, active, AAA, mainstream, classic/heritage - everyone wants to play artists they can "own," and limit the artists and songs that might cause "confusion" among the audience. What is left for mainstream and active rock stations? Are there great bands being left out because they're too hard to categorize? Where's the line between smart "positioning" and missing the forest for the trees? "What Is Rock, Anyway?" will help define these questions and provide valuable answers for those in attendance. Joining Coburn will be **Keith Hastings**, Program Director for WAAF/Boston, **Doug Podell**, Program Director for WRIF/Detroit, **Mike Stern**, Program Director for WLZR/Milwaukee, **Randy Hawke**, Program Director for WJJO/Madison, and **Mike Rittberg** from Warner Bros. Records. The session will also include a special performance by Atomic K Record's **Skywind** -whose "Deep Blu" is happening at WJJO (15x), KRRO (10x), KARZ (10x), WHMH (7x) and WDRK (5x) and more! A complete Conclave agenda is found elsewhere in your TATTLER!!

BOB MICHAELS TO PRESENT PPM FINDINGS ABOUT RADIO LISTENERS' TV HABITS AT THE CONCLAVE LEARNING CONFERENCE 2003! Do You Know What Your Listeners Watched on TV Last Night? Do you know why that information is important? **Arbitron's** Sr. VP/Radio Programming Services, **Bob Michaels** will present the latest Portable People Meter (PPM) findings on radio listeners' television viewing habits. This information can help radio stations connect more effectively with their audience. For those radio stations currently advertising on TV, Michaels will demonstrate that buying prime-time slots may not be the best investment. Catch this important session at the Conclave, next Friday afternoon at 2P

**Entercom's** Alternative KRBZ/Kansas City ("96.5 The Buzz") remains the center of attention this week, as APD/MD/Middayer **Todd Violette** has resigned. His last day will be July 25, and he is hinting that he's moving to a new position soon. Meanwhile, there's continued speculation that KRBZ could see a format change to sports, but format change rumors have been swirling in KC for months and nothing's come of them (yet?).

**Clear Channel/Twin Cities** has announced that the FM side of Minnesota Vikings football broadcasts will shift stations this season. While AM 1130 KFAN ("The Fan") will continue as the flagship, expect the FM simulcast home to shift to oldies-format 107.9 KQQL "Kool 108." For the last two seasons, the FM home for the Vikings was Classic Hits 100.3 WLOL, which flipped formats to Smooth Jazz as KJZI a couple weeks ago. Kool 108's 100kW signal comes from a tower site in Anoka (Northern Twin Cities metro) and its coverage is strong in the Twin Cities, but is a bit spotty in some far-southern areas than the comparable coverage of the main Shoreview signals. Many insiders were speculating that the Vikes would be heard on sister country KEEY-FM ("K-102"), which carried their games for a few seasons about 15 years ago.

**Emmis' Alternative WKQX/Chicago ("Q-101") PD Tim Richards** has exited the station, and APD/MD **Mary Shuminas** has been appointed Interim PD. No further information is available at press time. Tim Richards IS still slated to appear at the Conclave alternative session next Saturday in Minneapolis!

**AP News** is reporting that **Clear Channel** sports KWSL-AM/Sioux City, IA has failed to pay property taxes to Dakota City (the site of the station's four towers) across two ownerships (the former owner was **Cardinal Communications**) since 1947. The non-payment is reportedly a result of a paperwork mix-up. A country assessor became aware of the discrepancy when she read a newspaper report that the station was seeking to renew its lease on the tower-site land, and the assessor knew that the land hadn't been included on the city's list of leased property. The situation will be cleared up by placing the land back on the tax rolls and sending a notice of valuation to the station (estimated around \$25,000). But KSWL business manager **Shirley Dicus** told AP says that she writes a check for \$1,153 every year to Dakota City for property tax. Speculation says the mix-up may be that the check only covers the antennae and improvements on the grounds. The station has 30 days to protest the city's maneuver.

Syndicated Conservative talk show host **Michael Savage** was fired from his weekly TV show on **MSNBC** last week, after getting into a heated exchange with a "gay" caller, calling him a "sodomite" and stating that he should "get AIDS and die." It turns out that the caller was **Bob Foster**, a known radio prankster hoping to drop mentions of the syndicated "**Don and Mike**" show on competitor's shows. Savage claims that he knew it was a ruse, and didn't think his remarks were actually making it to the air. Meanwhile, several of Savage's talk show affiliates suspended the show in response to his remarks. Entercom talker WRKO/Boston dropped the show for one day, along with Salem's network of Conservative talk stations including KRLA-KRLH/Los Angeles, WWBA/Tampa, and WWTC/Minneapolis ("AM 1280 The Patriot"). Foster appeared on **David Lawrence's** show "Online Tonight" on Wednesday and has stated that he hoped to get mentions of the "Don and Mike" show on the Savage show, and had not intended to get Savage fired.

**Kelly Music Research** will preview the findings of a nationwide listener poll at The Conclave on Saturday, July 19th, at 9am. More than 1,700 radio listeners have participated in the survey, with more expected by the time he makes his Conclave presentation. He said initial results indicate that 32% of radio listeners have downloaded MP3's, legally or illegally, in the past 6 months and that 29.5% have attended a radio station sponsored event, while only 15% have participated in an **Arbitron** survey. What other discoveries has Mr. Kelly uncovered? You'll have to attend the Conclave next week to find out! The Conclave Learning Conference, "The Future Ain't What It Used To Be!" - Thursday July 17th, to Sunday, July 20th, 2003 at the Minneapolis Marriott City Center. For more information and to register for the conference, call (952) 927-4487 or visit [www.theconclave.com](http://www.theconclave.com).

The *Indianapolis Star* is reporting that **Emmis** President **Jeff Smulyan** had a run-in with two repo men, as they came onto his property, past a "no trespassing" sign, on May 27 at 2am. They were there to repossess a 2000 Honda Accord belonging to Smulyan's fiancée **Heather Hill**. Smulyan asked them to leave, and is now reportedly suing the American Honda Finance Corp and the repo men for trespassing and invasion of privacy. The dispute came about because of Hill's attempts to return the car early, and the suit says that Hill had already mailed a check, which had payment stopped after the incident.

**Clear Channel** talker AM 1310 WDXD/Detroit will present another famed "Keener 13" reunion on August 15 and 16, led by **Steve Schram** and **Scott Westerman**. "Keener 13" was the moniker for the former format of the station, known as WKNR in the "heyday" of Top 40 radio. The reunion broadcast will take to the airwaves on WDXD for a day and a half next month, temporarily replacing the current talk format.

**MercyMe** scores new airplay at KCDU, WJLQ, WLTJ, WKTI, KUDL and more. "**I Can Only Imagine**" is finally gaining hit status as it moves 37-34 bullet on the Top 40 *R&R* Chart. **Curb/INO Records**

**Michigan Talk Radio Network** host **Dave Barber** is in a dispute with Flint police over a sheriff's badge. The *Flint Journal* reports that Barber was arrested June 11 after Barber opened his wallet to pay a bar tab and a man who had confronted him in an argument saw an old Genesee Country sheriff's badge. Barber will be arraigned on July 15.

**Entercom**/Madison Oldies WOLX ("Oldies 94.9") and '80s WBZU ("105.1 The Buzz") PD **Jeff Lynn** is exiting the stations after five years to become PD of Clear Channel's Oldies WRIT/Milwaukee. The PD slot for both stations is open for applications; see *JOBS*.

**Layne Larson** is getting critical raves from programmers across the region, including KCVW/Waterloo's **Jamie Phillips**. He says, "Layne's vocal range reminds me of Tori Amos, Jewel and Sara McLachlen. She is a talented young lady with a great future ahead of her. She writes and sings songs that have deep emotional connections. Layne's music is a great match for our 25-54 female audience. I am looking forward to hearing her again at The Conclave." She just did a very successful station appearance for "Mix 96" last week, and she'll perform for radio in front of the Mainstream A/C session at The Conclave next week!
