

THE MAIN STREET Communicator Network TATTLE R 30 30th Anniversary 1974 - 2004

The Conclave has revealed it's **2004 Conclave College** agenda! This year's edition of the College is set to take place on Thursday, July 15th, presented by **ALL ACCESS**. Here's how the afternoon shapes up: 1p: *"Ten Secrets for Successful Programming!"* with **Gary Berkowitz** of **Berkowitz & Associates**. During this presentation, Gary - an AC radio consultant and successful former PD (check out the recent tribute to WPRO/Providence, found in last week's *Radio & Records* for some of Gary's history), will delve into what secret skills PDs need to win. 2p: *"Arbitron 101: How Do We Get The Numbers?"* with **Arbitron** VP/ Programming Services **Bob Michaels**, a long-time Conclave contributor. Bob will teach attendees how to better understand — and improve — their numbers in an easy-to-follow session. 3p: *"Production for the Next Generation"* with KZLA/L.A.'s **Mike Madrigal**, **Ian Sturgeon** of **Big Fish**, and **Kate Delaney** of **Short Bus**. These three pros break down the art of production and talk about what your audience is looking for when it comes to your station's sound. 4p: *"Promotion Basics: Simplifying the Chaos"* with **Rocco Macri**, CEO of **Listeneremail.com**. Look for Rocco to help attendees to take a step back and find the right promotions for their audience. 5p: *"SUPERSESSION: The New Paradigms — They're Full of Shift!"* with **Ed Christian**, Pres. and CEO for **Saga Communications**, **New Radio Group** CEO **Mary Quass**, and friends. Following Conclave College, a variety of receptions, showcases, and surprises will occur both inside the hotel and outside at various Minneapolis entertainment venues! For more information and to register now for the 2004 Conclave - Thursday, July 15th to Sunday, July 18th at the Marriott City Center in downtown Minneapolis - call (952) 927-4487 or visit www.theconclave.com. Tuition is only \$299, but only until May 15th (just a week away), so register today!

Last time we saw **Richard Marx**, he was front and center at the Grammys taking home hardware with his name on it! While he's been busy writing for other hitmakers, he's kept one or two for himself. Adding at Hot AC on 5/18 is **"When You're Gone"**, the debut cut from his forthcoming Manhattan release, **MY OWN BEST ENEMY**. But some format leaders didn't wait, like **WMMX** and **WINK**. FYI - if you're expecting a power ballad from Mr. Marx, you're gonna be disappointed!

Move over, Carlos...**De Sol** is here!

Senator **Al Franken**? Is **Air America Radio's** most visible host perhaps planning for a career after talk radio? According to reports from the *Associated Press* this past weekend, Al said the odds are better than 50-50 that he'll challenge Sen. **Norm Coleman** (R-MN) for his job in 2008. Franken said he has already talked over the idea with Sen. **Hillary Rodham-Clinton** (D-NY) and has "thought about it and discussed it with my family more," apparently with only his son **Joe** voicing a negative opinion among family members. Meanwhile, across the dial, **Premiere Radio Networks** talk show host **Glenn Beck** had promised to air an abortion last Friday, prompting a firestorm of protest. When the moment finally arrived, Beck played a short clip of Air America Radio's **The O'Franken Factor** last Friday, stating that "if you don't think the Al Franken Factor is the biggest abortion on radio, you're sadly mistaken." The stunt was praised by some and condemned by others. But, as is usually the case in such stunts, it was Franken who benefited the most from the free publicity for the struggling Air America Radio network!

Speaking of Senator Coleman, he told songwriters, lawyers and other music industry participants Monday that if the recording industry wants to survive the trend of downloading music, the industry will have to adapt rather than fight evolving technology. Coleman is the chairman of the Senate's Permanent Subcommittee on Investigations, and he spoke at the **Future of Music Coalition Policy Summit** in Washington. He challenged the audience to reject litigation as an answer, then said "You are the creative force in America; be creative...I don't believe you can stop illegal use by suing a few people." His solution? Coleman said the recording industry is going to have to develop more competitive alternative business models in order to keep the industry running in an era of digital technology. But taking downloaders to court is not a good business strategy. He explained, "The answer is not going to come from government. The answer is not going to come from Washington."

Kimberley Locke spent a few days in Minneapolis this week, doing the retail thing in advance of her CD hitting the stores on Tuesday. In fact, she performed at the Mall of America on that day to just under 1,000 fans...including a gentleman named **Prince** (who watched from the shadows of the Mall's protected 3rd floor!). Good timing, too, as **"8th World Wonder"** climbed into the top 20 that very day! **WZEE 58x**, **KSTZ 49x**, **WIXX 40x**, **KKDM 38x**, **KQIC 35x**, **KMXV 32x**, **WKTI 31x**, **KDWB 20x**, etc. **Curb**

At the request of the U.S. military, **Hubbard** Talker **KSTP/St. Paul, MN** has taken down an e-mail "diary" by a U.S. military interrogator from its web site. **Joe Ryan** reportedly asked the station to remove the material, consisting of his e-mails to morning hosts **Ron Rosenbaum** and **Mark O'Connell**, shortly after news of the photos of abuse of Iraqi prisoners by U.S. guards became public this past week, despite the fact that Rosenbaum told the *Minneapolis Star-Tribune* that he has "no reason to believe that Joe is under investigation" and that he isn't certain that Ryan was even posted to the same prison as the site of the torture and investigation.

MercyMe's "Here With Me" has a much quicker jump on radio than did "I Can Only Imagine", with WNCI already on the board for next week! Three formats are already checking in with successful results, represented by WRVW 20x, WNDV, WBMX, KSRC 21x, WMGN 19x, etc. Audition, spin, enjoy! **Curb**

"We're converted a local tavern into Milwaukee's version of the 'Central Perk', complete with comfy couches." The event featured lots of giveaways, and a special appearance by *Friends* character 'Janice' (actress **Maggie Wheeler**)!

Thanks for making **Hoobastank "The Reason"** a top 5 song in virtually all pop/rock formats, with most stations telling us it has hardly peaked! We'll let you do the research, and count up stations playing this smash 50x or more! FYI – If you viewed *FRIENDS* last night, you heard an incredible acoustic version of the song. If you'd like it, we have it as an MP3, but be cautioned: it's 7MB big (3:48). If your email program won't allow a larger file to transmit, check www.main-st.net. COMMENT: By now, you've heard that **Sinclair Broadcast Group** prohibited its eight **ABC** affiliated stations from airing last Friday's "Nightline," which consisted of the simple naming of US service people killed in Iraq. A statement on the company's termed the **Ted Koppel** broadcast as "motivated by a political agenda designed to undermine the efforts of the United States in Iraq." It would be one thing if Sinclair was a small company making an isolated political statement of its own, but this is a conglomerate that owns or operates 62 stations reaching 24% of total US TV households, including Midwest stations like KDNL/St. Louis and WSYX/Columbus. For one evening, millions of viewers DID NOT experience the political agenda of "Nightline", but instead were treated to the agenda of silence foisted on them by Sinclair. Instead of the honoring the final sacrifice of service men and women fighting under the shadow of our flag in Iraq, Sinclair chose to air *Cheers* reruns. For anyone who continues to believe that continued consolidation of radio/TV is good for America, this Hitler-esque abuse of power should finally close the chapter of that book. If the FCC wants to fine **Howard Stern** for the use of adolescent locker-room language, then what could it possibly be thinking when it ignores the political censorship and the clear abridgement of First Amendment Rights by this major television corporation? The scariest thing of all? The abject silence on the subject by virtually every consolidated media company in America. And radio/TV's chief lobbyist – the **NAB**. And finally, the **FCC**. It's time for the stewards of our airwaves to begin serving their public interest. Now. Let's start with demanding freedom of expression, and work our way up from there. If the stewards can't handle their important obligations, then let's find licensees who will. TK

Footnote to the Commentary above: A radio station – KTRS/St. Louis – DID air the audio of "Nightline" last Friday. Said KTRS Station Manager **Fred Zielonko**, "We thought the St. Louis audience deserved to hear what the rest of the country has the opportunity to hear. Once the local TV station decided to pre-empt it, people started talking about it and as a talk radio station we react to what people are talking about. We wanted people to get the chance to judge for themselves as to what the motivation to read these names might be." Now THAT'S public service.
