Conclave Scholarship Season Begins! Today, the Conclave is kicking-off the 2005 scholarship application drive for the radio and television broadcast scholarships given annually to three nationally recognized educational institutions. The scholarships are offered to attend **Brown College** of Minneapolis, MN or to **The Specs Howard School of Broadcasting Arts** of Southfield, MI. One Music Business scholarship will be awarded to **Musictech College** of St. Paul, MN. In all, Conclave scholarships represent a value of over \$65,000... and that's not counting the Conclave's Continuing Education Scholarship, worth another \$1,500! Entry forms and more information is available now at the Conclave website at www.theconclave.com. Soon, the same information will be available inside career counseling offices at high schools around America. This simple application process for the radio industry scholarships involves answering a one-page questionnaire and providing a voice tape/ CD from the prospective student. An essay must accompany the music industry scholarship application in lieu of the audio tape/CD. Details on the Continuing Education Scholarship will be forthcoming in early 2005. The scholarship deadline is April 1, 2005. Winners will be announced shortly thereafter, while the Continuing Education Scholarship winner will be announced during the summer conference. The Conclave will soon have radio PSA's announcing the scholarship availability's via download at www.theconclave.com for stations wanting to help students in their community.

Last week, **Clear Channel** Hot AC KBIG/LA presented **EMI/Manhattan** recording artist **Richard Marx** to a packed house at a club on LA's Sunset Strip with a packed house and a show that folks are still buzzing about! His fans were treated to a duet of "**Everything You Want**" with Marx touring guitarist **Matt Scannell**, whose group **Vertical Horizon** had made it a big hit a few years back. Then, Richard brought on a special surprise guest rendition of his "**This I Promise You**" with 'Nsync's **JC Chasez**. But the highlight of the night was his reading of "**Ready To Fly**" which brought the house to its feet. That's just one reason to expect a 'most-added' week for the song as it hits radio on Monday!

In what appears to be a presidential campaign first, the Bush-Cheney campaign has taken to buying ten-second tags for radio news and traffic reports. According to reports from this week's *Milwaukee Journal-Sentinel*, the practice has run into some snags, including one with Talker WTMJ who has reportedly asked **Metro Networks** to stop having their traffic reporters read the campaign ad tags. News Dir. **Dan Shelley** is quoted as saying, "Since our long-standing policy is not to broadcast any political advertising within the confines of our newscasts, regardless of who the candidate is, we immediately called Metro Networks and asked its personnel to cease reading the Bush-Cheney '04 commercial." (Stay tuned for more developments!)

When the **Nelly/Tim McGraw** duet "**Over & Over**" hits #1 this week in *Airplay Monitor*, it will tie for the fastest record to ever reach that pinnacle! Congrats to Team **Universal** (and if this isn't your most spun song yet...it will be!)

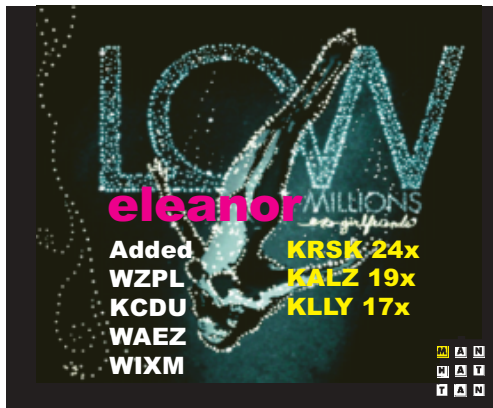

Earlier this week **iBiquity's** HD Radio announced the rollout of its digital audio broadcasting system on ten additional Detroit stations, giving the market 13 AM and FM stations using HD Radio!
