"What A Fool Believes..."

Clear Flannel President **Hulk Hogan** told Wall Street investors his company is changing gears and will be offering "More Is Less" to advertisers. The new philosophy incorporates the idea that for each spot an advertiser buys on the group's stations, they'll receive at least 5 spots for free! Said Hulk, "Hell, our crack sales guys have been whoring out spots for years. This finally recognizes the fact." When told about the new direction for the conglomerate, Chairman **Lowry Mayonnaise** was unable to be revived for a comment.

Hokum Networks is launching a new talk format, espousing Nazi ideals. Said President **H. Goering**, "Our hosts lean in that direction, anyway." The new presentation is being dubbed the *Jack Boot* format.

Riflescope Records announced a novel idea to sell more hip-hop/rap CD's: it will provide a brand new handgun with each album sold! Company spokesperson, rapper **49 Scent**, rhymed "This ain't no f#&*ing Christmas Carol/Gots my logo on the barrel!" The concept was created by his late partner, **Game-Over**.

Apple announced a new device which not only stores downloaded music but provides occasional puffs of marijuana smoke when the device is activated. It believes the new **High-Pods** will be on the market for the holiday season, but no one from the company could stop giggling long enough to confirm.

In a surprise move, the **FCC** – which already assesses half-million dollar fines for obscenity - moved to add new words to those radio cannot utter. Those words are "live", "local talent", "news department", and "profit". New FCC chairman **Dean Martin** told *The TATTLE R*, "We don't expect much reaction to the new rules. Those words haven't been used by radio in some time."

A new syndication company is being formed which will offer radio talk shows hosted by members of **Warrant**, **Skid Row**, **Poison**, and **Whitesnake**. *Hair America* debuts sometime this summer.

President Bush apologized to **Sirius** yesterday for the accidental downing of 2 of its satellites in an errant missile attack. Said the President, "Intelligence told us they represented a Stern warning for America. Sorry...I thought it was another **Osama** threat."

*If you've read this far, you've either caught on to the 'fake news' of our April Fool portion of today's TATTLE R...or you're begun vocational counseling in a search for a new profession. If you're still with us, as **Paul Harvey** might say, stand by for "...the rest of the story(-ies)!"*

Shocker in Detroit! This afternoon, **ABC/Disney** T40 **WDRQ**/Detroit dumped *All the Hits All the Time 93.1 DRQ* and launched *93.1 DOUG-FM*. We play...**EVERYTHING!** **DOUG** is another version of the **JACK** format. The entire **WDRQ** air-staff has exited, including PD **Alex Tear** and MD **Keith Curry**. Morning show host/APD **Jay Towers** is the only staff member who remains. The station is currently jockless.

Smoke 'em If You Got'em Dept. **ABC's** rock **KQRS**/Minneapolis took advantage of the new non-smoking law in Minneapolis/St. Paul which prohibits smoking in all public places, including all bars and restaurants in Minneapolis. The new law become official yesterday, but the **KQ Morning Crew** declared the law had been rescinded after just one day because officials "deemed the no smoking law a disaster." The team reported mythical spokesperson **Rick Monday**, a representative for "Minnesotans For Indoor Air Freedom" declared the law was removed because citizens deserved the right "to smoke in elevators and hospitals." Needless to say, the station's phones lit up with anxious listeners demanding details. After 90 minutes worth of fun, the station announced the April Fool's joke shortly after 9AM. But that didn't stop **KQRS'** phones - nor listeners who left their radios before the prank was revealed - from lighting up all day!

Federated Media Country **WQHK** (K-105)/Ft. Wayne morning stars were seen at their new jobs on April 1 – pumping free gas! **Dan**, **BJ** and **Dude** had been telling their radio audience for the past few days that they would be leaving for a new station, and they made good on the promise, heading to a nearby gas station after signing off to give away free gas to the first 105 cars. The career shift is only temporary, however, and the crew will be back as usual..til next April 1st.

Meanwhile, up in Ohio, **Infinity** **WLVQ**/Columbus listeners were in for a shock if they tuned in between 7 and 9 am, as the **Heritage Rock** station broadcast in Spanish as 96.3 **El Toro**. Poorly translated: **Ábril Enga-**a!

It's April in Bedford, IN, and of course that means time for the **Salute to Spring Parade**...at least according to **News/Talk** **WBIW-AM** and **Oldies** **WQRK/WQRJ**. The stations got into the spirit by spending the week promoting the event and then broadcasting "live coverage" of the parade, complete with police escorts, floats and marching bands. Townsfolk who showed up to see the festivities were disappointed, however, when the empty streets clued them into the stations' joke: it was all created in the studio! No word yet on whether or not the kids who thought they were going to see a parade have stopped crying.

Forever ending the debate that left-handed people are smarter than right-handers, several of the former drove 180 miles from Pennsylvania to Boardman, OH to eat at a new restaurant named **SouthPaws**, only to realize they'd been duped. Touted by **Cumulus** Top 40 **WHOT**/Youngstown, PA's **Wake Up with AC, Kelly and DC** show, the restaurant was to cater to lefties, featuring left-handed silverware, coffee mugs and booths. Unfortunately, there is no such restaurant, only a defunct **Chi-Chi's**, boasting boards in the windows. The **Tattler**, however, would like to offer those nice folks who drove all that way and were disappointed, a deal on some exclusive left-handed condos opening in Minneapolis...we accept only left-handed cash or checks.

A radio icon with links to the Midwest has died. Legendary **KFRC-AM**/San Francisco morning man **Dr. Don Rose** died in his sleep earlier this week due to complications from pneumonia. The native of North Platte, NE was 70 years old. He began his career at **KOIL**/Omaha in 1956, and later moved to **WEBC**/Duluth, MN. In 1972, he came to San Francisco and commanded the radio in the 1970s and 80s with his morning show, incorporating hallmark sound effects and silly jokes. **Dr. Don** left **KFRC** in 1986 but stayed in touch with listeners via his website <http://www.doctordonrose.com>. **Dr. Don** returned to the air last week on **KFRC's** morning show and shared a quote: "May the **LORD** bless you on your way in and on the way out". Those words are being used at the end of each hourly memorial tribute on the station.

VP of Programming **Mike Steen** says of the change, “As consumers become used to having a wide variety of choices available to them, radio has to find ways to step up to that challenge and remain relevant to our listeners’ lives.” The station plans to launch a new advertising campaign in April to let listeners know about the change.
