The **Conclave** is proud to announce the addition of **Thomas Harens** to its team! Thomas has been named Director of Sales for the organization, succeeding Brad Fuhr who has moved on to become Sales Manager for **Clear Channel's** KTLK- Air America/LA. Thomas is a St. Paul, MN resident and along with his Conclave chores is Team Director of **Inventing Solutions**, a non-profit entrepreneurial group. He's served as a marketing and sales director for a number of area firms, many in the environmental awareness arena. He's also served as a lobbyist and political campaign manager for candidates vying for positions as varied as US Senator, state Senator, and mayor of Minneapolis. Oh yes, he also has a bit of industry experience as manager for **Limited Warranty** – a group which won a *Star Search* competition (*Star Search* was the **Ed McMahon**-led precursor to *American Idol*) in the late 80's. That led to the group's signing with **Atco Records**, with lots of Midwest airplay following. As Conclave Director of Sales, Thomas will immediately be responsible for matching 2006 Learning Conference sponsorship opportunities with leading companies throughout the industry. Reach Thomas at the Conclave office (952-927-4487) or email [thomasharens@theconclave.com](mailto:thomasharens@theconclave.com)! Welcome to the madness, Thomas!

Three employees of **The University of Michigan**-owned **Michigan Public Media** (WUOM/Ann Arbor, several Grand Rapids and Flint stations) are in hot water over embezzlement charges. Former Deputy Director **Michael Coleman** along with former employees **Jeremy Nordquist** and **Justin Ebright** have been charged with accepting, respectively, airline tickets, a golf club membership and **Tigers** tickets, among other things. **Coleman** is the current GM of **Detroit Public Radio** WDET/Detroit.

The *Chicago Tribune* reported Monday (3/12) on the violent storms that swept across Illinois, focusing on the ravaged city of Springfield, IL where over 1,000 homes, two major shopping complexes and area hotels sustained major property damage. Also affected was **Saga T40 WDBR** and sister **Talk WTAX**, with winds toppling their broadcast tower, interrupting their signal. **WTAX** has resumed broadcasting using the 101.9 frequency of sister **Oldie's WQQL**. A statement made by a station spokesperson indicates that they are currently in the process of bringing **WDBR** back on-air.

A ruling by the **Minnesota State Campaign Finance Board** has given Governor **Tim Pawlenty** the green light to continue his weekly *"Good Morning Minnesota"* radio program. It was decided that the show, which airs on **CBS Talk WCCO/Minneapolis** and a chain of 10 other stations across the state under a contract between the state and the stations, does not qualify as an illegal campaign contribution as Democratic opponents had alleged.

**KPBR/Billings, MT** has rolled out a new format courtesy of **BOB-FM** mastermind **Joel Folger**. The station will now identify as "Rock 'N Country", as "The Bar". Says Folger, "You get all the best parts of your neighborhood bar: familiar faces (the artists), your favorite songs (the jukebox); and a great host (the bartender) but you don't get the same thing every time you stop in. From **Toby Keith** to the **Eagles...**and **Johnny Cash** to **John Mellencamp**. The Bar is everything Country and more!"

**Dick Kernen**, Vice President of Industry Relations for the **Specs Howard School of Broadcast Arts** in Southfield, MI, and 2002 Conclave Rockwell recipient, is the first male to be elected to the National Board of Directors for the **American Women in Radio and Television (AWRT)**. In 1988, Kernen was elected as the first male chapter president in Detroit's AWRT branch. He also won the Detroit chapter's first "Male Mentor Award" in 1988. Kernen's support for women in broadcasting goes back over 35 years to when, as the first program director of Detroit's heritage rock-radio station **WRIF**, he named the first two Detroit women to non-traditional roles: **Cindy Felong** as News Director and **Jennifer Miller** as full-time air talent. "It's been very encouraging to me over the past 25 years," he says, "to see the strides that women have made in almost every area of broadcasting — from top management, to positions that were once denied them such as on-air talent, program directors, news directors and etcetera." Congrats, Dick!

A unique partnership is being forged by **The Specs Howard School of Communication Arts**/Southfield, MI, **Greater Media's** rock giant WRIF/Detroit and the **Conclave!** Beginning last week, WRIF began airing a public service campaign aimed directly at its audience and touting the Conclave's 2006 scholarship to Specs Howard, imploring members of its huge cume to apply! The scholarship deadline is April 1<sup>st</sup>, so the station is concentrating its public service effort over the next 2 weeks airing the following spot: "It is said that one out of every four people hate their jobs... don't be one of those people. Do something you love like working in the radio or music business. THE CONCLAVE - a nationally recognized radio and music industry organization and WRIF - are offering you the chance to win a fully paid scholarship to the Specs Howard School Of Broadcast Arts. Houston will make the official leap from **Neilson Media Research** diaries to **Arbitron's Portable People Meter**, beginning in July, making them the first market to do so. Arbitron is aiming at being all top 10 markets by fall 2008 and in all top 50 markets in the coming two to three years. President/CEO **Steve Morris** said in a recent press release stating, "We decided to move forward because there are important benefits that the rollout of the Portable People Meter is able to bring to radio today. We believe advertisers will have increased confidence in the medium, thanks to the increased accountability that electronic measurement delivers. Stations will have new audience insights to make improvements to their programming and broadcasters will be better able to garner incremental revenue from new and existing advertisers."

In other **Arbitron** news, company legend (and **Conclave Advisory Board** member) **Bob Michaels** closed out a chapter of his career there as VP/PPM Programming services when he made a final presentation yesterday (3-16) at the **Rick Scott Sports Conference** in Arizona. In care you're wondering how the PPM Rollout announced this week will affect your market, here's a schedule of when the PPM hits your city: 2008 - Chicago (Winter), Detroit (Fall); 2009-Minneapolis (Winter), St. Louis (Spring), Denver (Spring), Cleveland (Summer), Cincinnati (Fall), KC (Fall); 2010 - Milwaukee (Winter), Columbus (Spring), Indianapolis (Spring).

**Roy Justis**, longtime morning man at **Clear Channel** Talk KXIC/Iowa City, IA, left the air and the station this morning after announcing to listeners that he was exiting because of disputes with the higher ups over "truth and fairness. In a related article, **The Iowa City Press Citizen** has Justis alleging that he hasn't received a raise in five years. He also claims that his show was going to be cancelled after he sent an email to management mentioning that he was considering pursuing a new job. **Clear Channel** RV **JJ Cook** says that the email stated that Justis had already gotten another job and was planning to leave the station.

Also joining the morning buzz is **Rusty Thomas** doing producer/news duties.

**Stephen Schram** of **Schram Communication Group** has been tapped for interim directorship of **Michigan Public Media** and the **University of Michigan**. Schram brings 17 years of industry and leadership to the table, with a career spanning radio and television with executive roles at **CBS Radio**, **Clear Channel** and **WJBK-TV**.

**Clear Channel** Top 40 WKSC/Chicago announces a sparkly new lineup. Now that afternoon man **Tic Tak** is out, **Adam Smasher** will take on noon-pm. Preceding him at 5-10am and 10-noon respectively are **Drex** and **Rodney P**; following will be **Mack** from 8-midnight and MD **"The Meat Behind the Beat"** **Smash** taking overnights.

A new **Mercury** study reveals that in a sample of 1000 people, 53% stated that, costs being the same, they would prefer HD Radio to 37% who indicated an iPod preference (leaving 10% undecided). For a more in-depth look, go to [www.radiomarketingnexus.com](http://www.radiomarketingnexus.com).

**Indiana University** and **Emmis** have partnered in a five year agreement that will bring football and men's basketball to the local airwaves. Talk WIBC will handle football while basketball will have a home on Country WLHK. Both are crosstown jumps, with the latter coming from **Clear Channel** Sports WNDE and Rock WFBX and the former from Sports WXLW.

**Army Specialist Roger Studdard** was homesick in Iraq when requested and was denied a Missouri flag by that state's Governor's office. Granting his wish were **CBS** Talk KMOX/St. Louis hosts **Paul Harris** and **Jon Grayson**. The latter, in a broadcast from Iraq spoke with Grayson who related the story of sending a note asking for the flag from his home state to a staffer in Gov. **Matt Blunt's** office and subsequently receiving a denial on letterhead from Constituent Services Liaison **Joseph Taylor**. Within one minute of opening phone lines after the story was told, a listener called in and offered to buy Studdard a flag. This call was hastily followed by a call from **Mary Kay** of State Rep. **Neal St. Onge's** office, who said she would get the soldier a flag that had flown over the state house.

NAB President/CEO **David Rehr** promised the **American Women In Radio And Television's** Leadership Summit last week that his organization go on the offensive. "Instead of reacting, broadcasters are going to be proactive. We're going to take the fight to those that want to undermine our business." Then, he criticized **Sirius** and **XM** for taking advantage of not being regulated. He took shots at satellite for promoting **Howard Stern** and giving away free receivers and service. *Comment: Sorry, David, but this sounds like the old reactive NAB to me - complaining about "unfair" regulation, while doing nothing to improve the competitive position of terrestrial radio over satellite and other new listener technologies. How DARE satellite broadcasters promote the stars of their service. To do the same nationally for terrestrial radio - which harbor personalities as diverse as **Rush Limbaugh** and **Al Franken** - is simply unthinkable, isn't it? And the NERVE of satellite to give away free receivers to expose an audience to their service! Terrestrial radio would never stoop that low in order to shill it's marvelous new HD technology. When HD was developing, it had far more important things to do than lobby the auto industry for receiver placement like satellite did, or to give away HD receivers in a well-orchestrated national campaign like satellite. To do the same would require an investment, and we know it's far more important to spend time and funds in an effort to lobby Congress to handcuff rogue new technologies. David, you've got **Eddie Fritt's** rhetoric down pat, and we all know it plays very well with terrestrial ownership and management. But you have the pedigree to bring needed creativity and vision to your position, as well. Where to start? Well, how about studying the **Stan Freberg**-created "Who Listens To The Radio" campaign stored away on a dusty back shelf at NAB headquarters. In the meantime, I guess the best you'll be able to do is to continue imaging terrestrial as "free" radio...right after this upcoming 20-unit hour. - TK*

**More Changes.** Christian KZZQ/Des Moines, IA brings **Jennifer Wogoner** on as APD/Promo Dir./on-air talent...WCIC/Peoria, IL PD **Grayson Long** will be taking over as the Director of National Promotions for **Integrity Music** effective 4/1....**Jeff Kelly** exits nights at Top 40 KMOQ/Joplin, MO to take a GM position at **Hardman Broadcasting** Sports WMBH...**Clear Channel** Urban WJLB/Detroit morning show host **Serch** exits. The other two players in the morning show, **Co Co** and **Foolish** will remain in place...Last week, we told you **Nick Summers** would step up to become the next Hog/Milwaukee PM driver. We failed to let you know Nick moves South for the gig - from his longtime PD post at rock WMZK/Wausau-Stevens Point.

**Woodward Radio** Hot AC WKSZ/Appleton-Oshkosh, WI flipped back to Top 40 format this week, after spending a couple of years as a hot AC. The staff will stay the same through the transition with programming guided by PD **Dayton Kane** and MD **Brian Davis**.

Lane, President of **Broadview Advisors LLC** and Manager of **FMI Focus Fund**, and Lautmann, of **Kitzinger Lautmann Capital Management**, feel that Emmis should stay exclusive to broadcasting saying that the deal would be, "a lose-lose situation for **Major League Baseball** and Emmis' shareholders." The duo believes that Pres. **Jeff Smulyan** doesn't have the funding himself for the purchase, so is using company money. Smulyan responded saying, "I might as well be blunt about it. A friend of mine in Washington said it looks like a lot of games are being played by the bidders - dirty tricks in Washington."
