Syndicated talk show host **Ed Schultz** claims that "Republicans and Conservatives" are conspiring to get him taken off Clear Channel Talk WCKY-A/Cincinnati. Hamilton County Democratic Party members report that they received a letter from Shultz that says "sources inform us right-wingers have even gone so far as to call local advertisers and tell them they will not do business with them because they buy advertising during 'The Ed Schultz Show.'" PD **Tony Bender** attests that he has not heard of any pressures being placed on advertisers to drop sponsorships. Added Cluster Operations Dir. **Darryl Parks**, the entire liberal-talk format is endangered in the market not from political pressure but because "we're not happy with the results" ratings-wise. "We're always looking for a way to improve our product (stations)," Parks said. "This isn't about any political ideology. This is all about ratings and revenues."

Alternative WKQX (Q-101)/Chicago and TRN-FM syndicated morning man **Mancow Muller** auctioned off over 300 pieces of memorabilia last Saturday, but he wasn't there to see someone bid on two bricks from serial killer **John Wayne Gacy's** house or **Charlton Heston's** "Planet of the Apes" pants and boots. Muller was in New York for a New Media Seminar "FM Talk" panel. Auctioned items included a replica of the Batmobile, a prop Tri-Corder from "Star Trek III", and a guitar autographed by members of KORN. A reported \$160,000 - over \$2,000 of it being from crime-related items - went to charity.

Clear Channel Top 40 WKSC (103.5 KISS-FM)/Chicago has named **Rick Gillette** as its new PD, beginning June 19th. Formerly, Rick served as DMX VP/Music Entertainment. Clear Channel RVPP/Chicago Trading Zone **Darren Davis** is reported as saying "We're thrilled to have Rick coming aboard. He's the one to lead us to the next levels of success as Rick is one of the most creative PDs I've ever been around. He and consultant **Steve Perun** will work together during a transition period locally. Once Steve moves on from Chicago, he will continue as our consultant to help continue the process he's begun. We're all very excited about this." But wait, there's more...and it's VERY different! Yesterday, Clear Channel/Chicago Trading Zone RVP/Programming **Darren Davis** announced that Detroit PD **Dom Theodore** (CC/Michigan RVP/Programming and Top 40 WKQI) has been named Programming Consultant for Top 40 WKSC (KISS 103.5)/Chicago, replacing **Steve Perun**. Theodore will work with new WKSC PD **Rick Gillette**.

Clear Channel/Des Moines has launched AAA KPTL -"The Capital" - formerly occupying the frequency owned by Adult Hits KDRB. (KDRB shifted to "100.3 The Bus" a few weeks ago when KMxD flipped from AC.) The Bus continued broadcasting on its old frequency until the format was launched under the guidance of CC National Triple A Format Brand Manager (and KTCZ/Minneapolis PD) **Lauren Macleash**. CC VP/Market Mgr. **Joel McCrea** said, "The incredible success of KDRB 'The Bus' prompted us to move that station to a much stronger signal at 100.3FM. That created an opportunity to create something new for the market on the 106.3 frequency." He added, "People who liked KFMG, and before that KDMG, would like this station."(KPTL is in the process of hiring at least three on-air personalities, and the Bus' PD **John McKeighan** is in charge until a new PD can be found.

FORMAT SYMPOSIUMS AT FUTURE TENSE! The Conclave announced today the line-ups for the Top 40, Adult Top 40 and FM News Talk format symposiums being presented by platinum partner, Billboard Radio Monitor, set to take place at "**Conclave 2006: Future Tense!**" Some of the best-known names in radio are scheduled to appear at the Marriott City Centre in Downtown Minneapolis to educate attendees on how to maneuver through the difficult issues facing each format. The *Top 40 Format Symposium* (Friday, July 14 at 1:30PM) - "*Top 40 Boom Time*" - will explore current trends at mainstream top 40 radio, including the growing musical variety that is refreshing the summer airwaves. Along with a host of new artists and tempos that are helping top 40 redefine its niche, the time-tested format is exploring new technologies and amping up personalities and promotional pull. Led by Billboard Radio Monitor Top 40 Managing Editor, **Chuck Taylor**, the symposium's faculty includes **Sean Ross**, VP of Music and Programming for Edison Media Research/ Somerville, NJ, **Mike Kaplan**, OM/PD of B97 & Bayou 95.7/ New Orleans, **Jimmy Steele**, Program Director for KHTS-FM/ San Diego, **Jon Zellner**, Senior Vice President of Music Programming for XM Satellite Radio/ Washington DC and **Silvio Pietrolungo**, Director of Charts for Billboard Radio Monitor. "*Adult Top 40: Where's The Passion?*" (Friday, July 14 at 4PM) explores a conflicted Adult Top 40 format being attacked by adult hits stations and other like formats on the one hand, and by a total lack of identity on another. How does the passion get re-ignited? **Mary Ellen Kachinske**, PD of WTMX/ Chicago, **Kevin Robinson**, VP of CBS Radio/ PD of KYKY/ St. Louis, **Bob Walker**, PD for WKTU/ Milwaukee and **Gary Trust**, Charts Manager for Billboard Radio Monitor will join moderator, **Ken Tucker**, Billboard Radio Monitor, in discussing the formats needs and discovering solutions. **Sean Compton**, Clear Channel Radio VP of Programming, **Tony Garcia**, Lincoln Media Group VP/Affiliate Sales at WLNK/ Charlotte and **Lee Michaels**, Radio One Network Program Director will take part in "*FM News/Talk: Breaking Away from the Pack!*" (Saturday, July 15 at 8:30AM) FM News/Talk is no longer the domain for just "angry white guys." MORE FORMAT SYMPOSIUMS AT FUTURE TENSE! The Conclave announced today the line-ups for the Modern Rock, Rock and Retro Format Symposiums being presented by platinum partner, Billboard Radio Monitor, set to take place at "Conclave 2006: Future Tense!" Some of the best-known names in radio are scheduled to appear at the Marriott City Centre in Downtown Minneapolis, teaching attendees how to maneuver through the issues facing each format. **Ken Anthony** of DeMers Programming will moderate "Modern Rock 2006: An Inside/Outside Perspective." (Friday, July 14 at 1:30PM). Modern rock is in a state of flux at this year's halfway point and this session will explore the state of the format as it moves through the second half of 2006. Set to join Anthony are **Russ Schenck**, PD- WBUZ/ Nashville, **Alex Tear**, PD- WKST/Pittsburgh, **Jeff McHugh**, PD- KRSK/ Portland and **Anthony Colombo**, modern rock/active rock/heritage rock/triple A chart manager for Billboard Radio Monitor "Rock: What Happens Between The Records?" (Friday, July 14 at 4PM) with moderator **Mike Boyle**, Billboard Radio Monitor's Senior Editor/Rock Editor, will examine new trends in marketing rock radio including Web site integration, on-air presentation, HD side channel programming strategies, electronic audience measurement, and the state of the format's music. Confirmed faculty include WRIF/Detroit OM, **Doug Podell**, WHQG (The Hog)/Milwaukee PD **Keith Hastings**, WKLQ/Grand Rapids PD **Darrin Arriens**, KFMW (Rock 108)/Waterloo, IA PD **Michael Cross** and KAZR (Lazer 103.3)/Des Moines, IA PD **Ryan Patrick**. **Harve Alan** of Mercury Radio Research will moderate "Retro: The Second Act-What's Next?" (Friday, July 14 at 1:30PM). Retro Radio comes in many different flavors and names ("Jack", "Bob", "Mike", "Arch", "Bus", etc.) and many are doing very well. What's their secret to success? What has been the impact on competitors in the marketplace? What creative staging has worked best to capture an audience? Joining Alan with the answers will be **Jules Riley**, Program Director of WARH/ St. Louis, **John Lassman**, Program Director for KZJK (Jack FM)/ Minneapolis and top industry consultant, **Alan Burns**.

A \$15 million patent infringement lawsuit has been filed by Digital music delivery company **Musicrypt** against chief rival **Promo Only** and their partner **Destiny Media Technologies**. Musicrypt claims that Destiny Media and Promo Only's systems infringe on its patent and that the validation process for access is not limited to biometrics, claiming that password/username authentication is proprietary to Musicrypt.

Clear Channel's one-second spot proposal has received attention in the advertising trade magazine Advertising Age. The article about Clear

Channel radio's "blinks" quotes Senior VP/Creative **Jim Cook** explaining that the plan "really is to find new uses of radio for advertisers who are continually asking us to demonstrate that our medium can successfully extend brands, can successfully reach the consumer with touchpoints that are new and surprising." Some examples of the "blinks" include playing jingles like the the NBC chimes, or a honking horn and the word "Mini" for **BMW's** Mini. Agency representatives interviewed by the magazine voiced skepticism that anyone would go for the "spots," but Richards Group Dir.-Broadcast **Jim Gaither** said he has talked with Clear Channel about three second spots and offered "it's not building a brand; it's refreshing a brand" but noted that "you can't use a one-second campaign for something that generally has not been advertised before."

New York State Attorney General Eliot Spitzer announced a settlement with the fourth and final major label group in his on-going payola investigations, **Emi Music North America**. The agreement covers **Virgin Records America**, **Capitol Records**, **Emi Christian Music Group** and **S Curve Records**. Like Sony/BMG, Warner Group, and Universal, EMI will be fined. In EMI's case, they will make a \$3.75 million payment, which will be distributed through the **Rockefeller Philanthropy Advisors** to New York State not-for-profit entities to fund music education and appreciation programs. "When a record label engages in an elaborate scheme to purchase air time for its artists, it violates state and federal law and presents consumers with a skewed picture of the country's proclaimed 'best' and 'most popular' music," Spitzer said. "We're pleased that our investigation of payola in the music industry has resulted in significant business practice reforms that will help generate more diverse airplay." The EMI investigation and settlement were handled by Assistant Attorneys General **Charles Smith**, **Joseph Palozzola** and **James Yoon**, under the direction of **Terryl Brown Clemons**, Assistant Deputy Attorney General for the Division of Public Advocacy – and keynote speaker at next month's Conclave Learning Conference. Spitzer's investigation into pay for play continues with a lawsuit against **Entercom** still pending (Entercom is contesting the suit). While many – according to industry pundits - think Spitzer has overstepped his authority on these matters, none of the major label groups contested any of his findings and quite quickly and willingly agreed to pay the penalties. *COMMENT: This just about wraps up the major label portion of Spitzer's quest to uncover payola practice. And the settlements indicate each group was ready to admit "guilty as charged". The capitulation of the labels basically leaves the radio players in the allegations hanging out to dry, although the FCC has yet to pronounce any findings of payola against the major radio groups they're currently investigating. What's interesting to note is that several indie promoters are still "claiming" isolated radio stations, as they did this week when a trade's new reporters were named. That would mean, labels will apparently still be paying these indies per add at each station claimed. And that would further imply radio stations are receiving funds from said indies for add information – which, of course, kicks payments into gear. To the casual observer, this would seem a bit rash on the one hand and dangerous on the other. But all this is sadly outweighed by the fact that some radio stations are so hungry for funds, they are willing to gamble a license to get them. The investigative information shared at Ms. Terryl Brown Clemons keynote session at FUTURE TENSE next month in Minneapolis may prove to be one of the most telling – and important – you may ever glean at a radio conference. We hope you'll be in attendance.*

Apparently, the station failed to file its renewal application in April 2004 and the licenses expired on August 1, 2004; the college has been notified of the problem by the **FCC** and faces a fine and/or revocation for the failure to file.

VP for University Relations **Joe Bennett** characterized the situation as a mixup and that Station Manager **Dan Bennett** explained that he "filed everything on schedule two years ago when he was supposed to do it. Dan has documentation of everything he filed. It's unfortunate that their records are not showing it, but ours do." The FCC's **Michael Wagner** told reporters, "as of August 2, 2004, these stations had no authority to be on the air." Bennett said that the stations' Washington law firm, Wiley, Rein and Fielding, is working on the matter, and Wagner who has spoken with the lawyers report that "they know what to do to make it right."
