*This week, the TATTLE R continues reprinting articles and reports found in both **Billboard Radio Monitor** and **All Access** – two of the Conclave's most loyal Partners – as the publications reflect upon what was learned at the 31st annual Learning Conference. Our thanks to **Paul Heine** and **Joel Denver** and their respective staffs for their detailed coverage.*

FROM ALL ACCESS.COM: The Top 40 panel, moderated by **Billboard Radio Monitor's Chuck Taylor**, featured XM Satellite Radio's **Jon Zellner**, KKMG/Colorado Springs PD **Chad Rufer**, WEZB and KBYU/New Orleans OM/PD **Mike Kaplan** and **Billboard Radio Monitor's Silvio Pietroluongo**. One significant point raised was that with new mediums such as **Myspace** and **Yahoo Music**, Top 40 radio had lost some of its cache as the main source for new music....**Jupiter Rising** and **Leigh Nash** entertained a lively crowd at the Thursday night Welcome Gathering. Other stellar off-premise performances included **Jesse McCartney** and **Josh Hoge** and **Cheyenne Kimball**...The CRB (**Country Radio Broadcasters**) were fully involved as one of the partners of this year's Conclave, sponsoring several relevant panels. Friday morning's "Charts, Dollars & Cents" was dominated by discussion of *Billboard* absorbing *R&R*, but the session also featured other useful info...Later that afternoon, "Breaking Of An Artist" featured **Universal South** artist **Rockie Lynne**, who discussed everything from conference room concerts by hopeful new artists, to the role of programmers in breaking new talent. On Saturday, the CRB, along with *Mediabase 24/7*, hosted a promotions nuts & bolts panel hosted by KFKF/Kansas City promo queen **Renee Fonner**. The session offered panelists suggestions on making remotes, contests and promotions more effective. The CRB has already given the nod to being involved with next year's Conclave, with the goal of making Country an even larger force at the 'Clave!

FROM BILLBOARD RADIO MONITOR: News about HD Radio converters and transportables being released into the marketplace, datacasting and the cost of receivers coming down were the main topics covered at Friday's (July 14) "Conclave HD2: Making It Work Session." In addition to reporting stats such as two radio stations a day are now converting to HD with the hope of having 1,200 outfitted by year's end, **iBiquity** director of broadcast marketing **Don Kelly** reported that there will be an HD Radio car converter on the market by Thanksgiving for standard analog radios. Though not digital, he said the converters will also be available

for home radios. He also said there will be a transportable unit with a car kit on the market by later this summer.

Kelly pointed out a **Kagen Research** forecast done earlier this year that projected total HD revenue to reach \$805 million by 2008, on the heels of over \$22 billion in total radio revenue. He also showcased the advantages of the datacasting abilities of upcoming HD Radio units, which will be able to offer on-demand real-time traffic (something **Clear Channel** is already involved with), plus weather and more — all presenting sponsorship opportunities.

Projecting that HD units will be in the low \$200 range soon, Kelly says, "When more manufacturers like **Sony** jump in, prices will come down dramatically, and when bigger box retailers such as Best Buy are able to offer the 'sweet spot' price-point of \$99, then they'll carry them."

Updating the current goings-on of the HD Radio Alliance, **Buzz Knight** - Greater Media VP program development and an Alliance member himself - said, "Market rollouts continue, but the Alliance continues to challenge itself and broadcasters to make their HD2 channels more than jukeboxes with compelling content. We continue to talk about experimentation."

From a record company perspective, Epic Records VP rock promotion **Cheryl Valentine** says the public awareness of HD Radio is "super low." As a result of that current perception, the label executive says she's asked why she needs to service HD2 stations when they're already servicing the mother terrestrial station.

At one point Valentine asked Kelly, "How is HD Radio going to be better than satellite?" He replied, "There's no subscription cost with HD Radio and we'll win with compelling content." (Report by **Mike Boyle**)

(In conjunction with *Billboard's* coverage of HD at the Conclave, **Tony Sanders** contributed this article on Minneapolis HD Radio in *Billboard Radio Monitor* - **Minnesota Public Radio** and **Clear Channel** each have an HD3 signal on the air in Minneapolis, in addition to their primary HD signals and their second-channel HD2s. Counting these two HD3s, Minneapolis-St. Paul has 23 HD-quality channels on FM and one HD channel on AM.

Billboard Radio Monitor's roster differs from the listings at www.HDRadio.com on two counts, by including the HD3 listings and by including a tally for non-commercial radio.

MPR's primary HD signal on 99.5 is classical KSJN. The HD2 signal is present but during *Billboard Radio Monitor's* tune-ins (July 12-14), it broadcast only dead air. The HD3 signal is local talk and appears to be time-shifted programming from MPR's FM sister in town, news/talk KNOW on 91.1 MHz.

Clear Channel's efforts are more interesting. First, the group has created a classic country station with the HD2 signal on 100.3 MHz: "The Wolf." The primary HD station is talk KTLK. The HD3 signal is a rebroadcast of CC's AM sports/talker KFAN (The Fan).

Billboard Radio Monitor tuned in these HD3 signals using a **Boston Acoustics** Receptor radio provided by **iBiquity Corp.**, brought out to the Twin Cities for monitoring during The Conclave conference.

Moving up the FM dial, here's the rundown on the Twin Cities' HD offerings: On 91.1—**Minnesota Public Radio's** KNOW is talk. The HD2 plays classical music that differs from the music offered on sister FM KSJN.

On 92.5—**Citadel/ABC Radio's** KQRS is classic rock (KQ92). The HD2 plays a wide variety of blues, everything from "Red House" by Jimi Hendrix, to early Robert Johnson, to serenades by Tom Waits. No promos were heard, just pure music.

On 93.7—Radio Monitor could not find an on-air HD2 signal for Citadel/ABC's rock KXXR, which airs, on its own, in HD.

On 97.1—Clear Channel's KTCZ is adult alternative. The HD2 is promoted on-air as "Cities 97 Studio, HD2," playing a more eclectic assortment of alternative music.

On 99.5—MPR's KSJN is classical. The HD2 is dead air. The HD3 appears to be a time-shifted rebroadcast of sister FM KNOW.

On 100.3—Clear Channel's KTLK is talk. The HD2 is classic country, with on-air promos like, "The jukebox of legends. The Wolf. Classic country HD2." The HD3 is a rebroadcast of sports/talk KFAN.

On 101.3—Clear Channel's KDWB is top 40. The HD2 is dance, promoted on-air as "This is the party zone. KDWB channel 2."

On 102.1—Clear Channel's KEEY is country. The HD2 is new or young country, promoted as "K102 New!"

On 102.9—**CBS Radio's** WLTE is soft AC. The HD2 offers a simulcast of AM sister news/talk WCCO.

On 104.1—CBS Radio's KZJK is adult hits/Jack. The HD2 is smooth jazz, promoted as "Jazz in high definition. 1041. Pure jazz."

On 107.9—Clear Channel's KQQL (Kool 108) is oldies. The HD2 is an 80s hits channel, promoted as "Kool One-Oh-80s."

On the AM dial, Radio Monitor found only one HD signal, that of CBS Radio's news/talk WCCO.

Last Tuesday (8/8), **Clear Channel/Minneapolis** held a gathering of Twin Cities advertisers, club owners, restaurateurs, and media, and presented them with a demonstration of HD radio. RVPP **Gregg Swedberg** and RVP **Mick Anselmo** held forth for 90 minutes, explaining and demonstrating the new technology...and then opening the floor to questions, like "Will this bring more jobs to radio?" ("That is absolutely our plan to ultimately operate our new stations independently, with their own staffs") and "Can we buy time on these signals now?" ("We're not selling inventory until these new HD stations have a proven audience.") The evening was capped by each of CC's HD programmers stationing themselves in front of booths representing each of the company's 5 HD channels, demonstrating their stations, answering specific questions about each one. There were lots of "oh wow" moments as CC's invited guests heard artists as varied as obscure 80's rockers **Accept** and country hall-of-famer **George Jones** on the new channels (no, they WEREN'T heard on the same one!). The best part for each invitee? Taking an apparent cue from **Oprah Winfrey**, Clear Channel sent everyone in attendance home with a new Boston-Acoustics HD radio. *Comment: In the past, THE TATTLER has criticized corporate radio for poorly planning and introducing HD radio. This week, Clear Channel/Minneapolis showed the industry how to successfully launch an exciting new technology in a marketplace with innovation and class.*

Arraignment was held Wednesday for a Pennsylvania radio personality on charges of misdemeanor domestic violence. **John R. Batcho**, aka "Mr. Sports" for WYFM (Y-103)/Sharon, PA—Youngstown, and his ex wife **Maria**

Macheses met on Tuesday in a bank parking lot to exchange custody of their daughter. Witnesses claim Batcho pushed Macheses to the ground. According to *the Youngstown Vindicator's* report, Ms. Macheses told the court that there had been an exchange when their daughter cried about leaving Batcho, and that he had touched her and she fell, but that she did not think he meant to push her. A \$3,500 bond was set and a court date was scheduled for August 30th in Girard Municipal Court.

Step Right Up...Take a Survey! Win a Prize! Did you attend *FUTURE TENSE- The 2006 Conclave Learning Conference*? If you did, make sure to take a few moments to tell the Conclave what you thought of your Conclave experience. In exchange for your opinion, the Conclave will offer FULL registration tuitions for next year's event (worth up to \$599 each) to TWO respondents who complete and submit this survey by August 18th. Names will be selected at random by **Troy Research!** The survey address: <http://www.srvy.net/x/1.p?15100723203178451456>. Thanks!!

A recent study lead by the **Future of Music Coalition** blames ownership concentration for the radio industry's greater job loss and lower wage growth in most U.S. cities. The study finds that since 1996, the consolidation and centralization of the top four radio companies has meant a cutting of local jobs and increased use of voice tracking. "Consolidation in radio ownership hasn't just homogenized music formats," said the Coalition's Executive Director **Jenny Toomey**. "It has devastated the broadcast profession and virtually eliminated the ability of radio stations to provide unique coverage of local news, music and community issues. Before the FCC moves forward to further loosen already weak ownership limits, it should understand the impact that deregulation has had on jobs and communities."

Changes. **Chip Ramsey** has left **Entercom's** Sports WSSP-AM/Milwaukee as PD. **Next Media/Chicago's** Crystal Lake cluster will welcome **Doug Daniels** as OM for AC WZSR (STAR 105.5) and Oldies WYVW (Y103.9). Daniels comes from **Maverick Media** AC WGFB/Rockford as PD. The new voice for Roberts Television (MY46/St. Louis) is former KTLK & KJZI-FM/Minneapolis news anchor/co-host **Marty Lenz**, who still works with KQQL part-time. Chicago's **Emmis Broadcasting** has named **Alex Quigley** as Interactive Program Manager for Alternative WKQX (Q101) and Classic Rock WLUP (The Loop).

Big doings in the Backyard! Here's **Backyard Broadcasting/Sioux Falls** VP/GM **Craig Hodgson** to tell you all about it: "We are the proud new parents of 95.7, 107.9 and 1520! As we have already told the new stations staff (along with our original stations sales staff,) and are in the process of telling our valued clients—We are giving everybody an unusual radio heads-up about what we are planning for what is now 107.9 The Wolf (KWSF.) We are applying for new call letters and plan to change the format on that station to 60's/70's Oldies on 8/31 and will call it KOOL 107-9. **Steve Stuck** remains the PD and morning host. We will have live Oldies programming the rest of the day and will continue to carry **O'Gorman** and **Vikings**. **Billy Solberg** remains as Local Sales Manager of our new stations along with **Leesa Bendt** and **Ronnette Carroll!**"
