Wisconsin's Senator Russ Feingold has sent a letter to FCC Chairman Kevin Martin to inquire about the status of the agency's investigation into possible violations of federal pay-for-play, or "payola" law. The agency's investigation is based on a previous investigation by New York Attorney General Elliot Spitzer. Spitzer has indicated there is evidence that radio station groups and their employees violated both state and federal law by accepting unlawful payments and other consideration from major record labels in return for airplay, among other questionable practices. "I hope this request will prompt the FCC to make a clear statement that it will not tolerate payola in any form, in order to close any supposed loopholes," Feingold said. "I urge the FCC to build on Attorney General Spitzer's investigation and assert its authority to prevent payola to the fullest extent possible." Following a settlement that Spitzer reached in August 2005 with Sony BMG, Chairman Martin released a statement indicating the seriousness of payola and the FCC's intention to investigate and prosecute violations. Martin said that the FCC's Enforcement Bureau had been directed to review the settlement agreement reached by Sony BMG and Spitzer, and investigate any incidents in which the agreement discloses evidence of payola rule violations. Yet there still is a lack of clarity about the FCC's jurisdiction, leading to uncertainty about whether loopholes exist in the federal law. Attorney General Spitzer's actions to shut down both traditional and new forms of payola show that the FCC could and should exert more authority. "Radio listeners should not have to worry whether a song was played because the station manager got a free laptop, or because the station's parent company is producing the artist's upcoming concert," Feingold said. "I look forward to hearing from Chairman Martin about his efforts to end abuse of our public airwaves."

The Cincinnati Enquirer tells us that sports man Andy Furman has been fired for branding Bengals wide receiver T.J. Houshmandzadeh as a "racist." The incident occurred on Furman's October 6th show and he was suspended by October 13th after the

player's agent protested the accusation. Houshmandzadeh had failed to appear for a paid event on Furman's show during the Bengals' bye week, and Furman blasted him on air saying that Houshmandzadeh had called him a "punk-ass white boy." Houshmandzadeh has denied the charge, and neither Clear Channel nor Furman would comment on the matter. Bill "Seg" Dennison will carry on with "Sportstalk," until a replacement is found.

Air America Radio attorney Tracy Klestadt stated in court that Air America has several possible buyers and hopes a purchase agreement will be in place by Thanksgiving. At the bankruptcy hearing on Tuesday, Klestadt was quoted as saying there was a "significant amount of interest," in the progressive talk network. The court has given a November 22 deadline to find a buyer, although none have been identified. An interim financing plan is in place for the company. Meanwhile, however, there is a "no-buy" list of advertisers who have demanded that ABC Radio Networks not run their ads. The list is making the rounds of liberal blogospheres, and is about 100 advertisers long. The list is much shorter than those that circulate for most top conservative talkers and "shock jocks." Media Matters for America and Thinkprogress.org are two of the websites circulating the list.

Todd Land, Dir./Radio Programming for Journal Broadcasting, announced "The Todd and Tyler Show," will begin in syndication on Monday, 11/6 on KZRQ Springfield and a week later, on November 13 on KICT Wichita. Land said, "The program has a tremendous fan base in Omaha, and we have been looking for the right markets and station opportunities to expand across the region. Our sister stations are perfect launching points, and we will continue to match this highly successful program with great stations wherever possible."

Minneapolis says farewell to one of its most successful morning in history. KTIS-AM/Minneapolis, its Contemporary Christian station, made it official last week: Chuck Knapp and Station Mgr. Jon Engen have left the station. David Christian, KTIS afternoon host, has moved to mornings. In July, Knapp took a leave of absence in light of family issues and decided upon retirement in September. Engen left the morning show in July as well, keeping his commitment to a partnership with Knapp. In addition to his duties at KTIS, Engen was serving as pastor of a local church and working a heavy speaking circuit. He decided in October to focus on his ministry duties.

Wacky and popular Tommy Mischke leaves afternoons at Hubbard KSTP-AM/Good Ol' St. Paul-Big Time to take over noon-2p weekdays. Columbus, Ohio's Sterling, the interim midday host, moves to Mischke's old spot temporarily while the station is on the hunt for a baseball 'n more talker to take the slot for the inauguration of next spring's Twins season.

Entercom buys Country WYGY/Cincinnati from Cumulus! Only the call letters and intellectual property are part of the deal, however, which means the staff and physical assets stay put. The two companies swapped for Entercom's Oldies WGRR and takes Cumulus' September 21 move of WYGY from 96.5 to 94.9, giving Entercom two Country stations in the market. WYGY will change frequency and image, according to Cincy's **Business Courier**. The station will move to 97.3, which was the home of Entercom's Alternative WAQZ, and will now be known as "**The Wolf...Today's New Country.**" The new image is edgier in music and positioning. Also in Cincy radio, Cumulus unveiled a new talk format on 96.5 FM on Thursday. Using its "Supertalk" slogan, it features a mix of syndicated programs.

He's back! **Dick Biondi** joins ABC Oldies WZZN Chicago for evenings, starting Monday 11/6, reports the **Chicago Sun-Times'** **Robert Feder**. This jock legend took off from crosstown CBS Oldies WJMK after 21 years when the station turned to Adult Hits "Jack FM" in June 2005 and worked on WJMK's HD-2/Internet Oldies stream until July of this year. Biondi will now spin the 9p-12am shift!

YOU'RE INVITED TO THE 2006 FALL CONCLAVE BOARD MEETING! Come one, come all to the quarterly Conclave Board of Directors meeting on Saturday, November 11th at the Marriott City Center Hotel (site of this past summer's Learning Conference). The meeting convenes at 9:30AM in the Minnesota Room on the hotel's 6th floor. So that we can prepare the room for visitors, please RSVP your intention to attend to the Conclave Executive Director Tom Kay at tomk@theconclave.com (or call 952-927-4487) no later than Wednesday November 8th. Unannounced walk-ups, of course, are welcome...we just want to make sure you have a chair to sit on!

After a three-day meeting in Houston last week, **Arbitron** has decided to delay the reporting of public and non-commercial radio stations in its local market ratings reports, based on input it received from the **Arbitron Radio Advisory Council**. Initially, Arbitron wanted to have public and non-commercial stations included in the Fall '06 survey, but the council requested that Arbitron wait until the company was ready to report individual satellite radio channels and internet radio channels.

The 2007 inductees for the **Country Music DJ Hall of Fame** and **Country Music Radio Hall of Fame** have been announced! **The Country Radio Broadcasters** have named former Country KIKK/Houston MD/air personality **Joe Ladd** and **Big John Trimble**, host of the Trucking Radio Show as inductees, and first-class consultant **Larry Daniels**, **Regent Communications** VP/Programming **Bob**

Moody, and former Country WNOE/New Orleans PD **Les Acree** will be bestowed honors. The ceremony will take place on Tuesday, February 27th during a banquet at the **Nashville Convention Center**.

The results of the **Abitron Radio Advisory Council** election are in! The vote was for the seat representing Continuous Measurement Markets Ranked 51+, and ended in a three-way tie. Runoff ballots have been sent to subscribing stations for the three candidates: **Dan Austin** (WROW-AM, WFLY, WYJB, WAJZ, WKLI, WZMR/Albany), **Roger A. Fessler**, (KERI-AM, KGEO-AM, KERN-AM, KISV, KGFM, KKXX/Bakersfield), and **Thomas Mandel** (WJQX/Lansing). The ballots must be returned or postmarked by November 13th.

A lot of adult radio listeners in **St. Louis** and **Detroit** followed the **World Series**, according to an exercise-in-the-obvious sports study released by **Arbitron**. Three in ten St. Louis adults listened to all or part of the World Series on the radio, with 46% of them agreeing that that feel more favorably toward an advertiser who sponsors the St. Louis Cardinals than an advertiser who does not, and 29% saying they'd be more likely to buy something from a Cardinals sponsor. Seven in ten St. Louisians say they followed the Series "very closely."

PD **Drew Stone** has turned in his resignation at New Northwest Top 40 KFAT/Anchorage and will return to California. KFAT's "Morning Chaos," begins Monday morning with the new Anchorage recruit **Brad Erickson!** After Stone's departure, KEKE LUV shifts from middays to afternoons until a new PD is found. **DJ Adam Focus** continues nights. KRPM/Anchorage becomes KXLW (X-Rock 96.3), with the slogan, "Everything that Rocks." GM **Tom Oakes** will act as PD until one is found.

"Hey, what happened to **Scotty Cage?**" This is the question that was blowin' up the request line at WDAY/Fargo, until PD **Troy Dayton** came up with the idea of "killing" the night guy and posting a video of the murder on the internet so listeners could see it for themselves! Of course, it was Halloween, so that made it all the more special. You can see Cage meet his maker by clicking <http://www.y94.com/pages/scottysdead.html>. Oh, no need for alarm: Cage is actually heading down to KKDM/Des Moines!

Downsizing forces out folks at the **Clear Channel** San Francisco cluster, most notably Hot AC KIOI (Star 101.3) PD **James Baker**. Taking over for Baker is **Stacy Cunningham**, who adds that title to her existing responsibilities s PD of Top 40/Rhythmic clustermate KMEL.
