The **Federal Communications Commission** is settling its payola probe into the nation's four huge radio companies: **Clear Channel, CBS Radio, Entercom Communications** and **Citadel Broadcasting**. The four will have a \$12.5 million fine divided among them and will additionally be required to collectively broadcast several thousand segments (of a half-hour apiece, reportedly 8,400 total) on so-called "independent label" and "local" artists annually, and between the hours of 6 a.m. and midnight. Complete settlement details have not been disclosed yet as the FCC still has to approve all measures. However, the \$12.5m figure would represent one of the largest fines that the FCC has ever imposed. The FCC had pursued the broadcasters in a wide-ranging payola investigation, largely in response to then-New York Attorney General **Elliott Spitzer's** investigation into payola in the music industry, which resulted in multi-million dollar settlements with CBS Radio (\$2m) and Entercom (\$4.45m) last year. He also got large settlements with the major record labels during the course of his probes, including one of \$12m against **Universal Music Group**. *Comment: there are approximately 1860 stations affected by the FCC edict. Of those stations, 1500 are music stations. Inside that number, there are approximately 500 adult hit, classic rock, oldies, nostalgia, and gold stations, which may – or may not – have to play along with the FCC. Assuming they would not be required to air the independent music, that leaves 1000 stations who would/could. That means, each music station that plays any sort of current from these groups would be required to donate about 4 hours (in 8 half hour blocks) to new, independent music. There are 36 half-hours each week - and 1872 each year - between the hours of 6AM and midnight (the times ascribed by the settlement for these independent music blocks) at each these stations. That translates to 36,000 half hours weekly and 1.8 million half hours annually at the music stations of the 4 radio companies that could feature the indie music programming mandated by the FCC. Now, let's compare those 8400 half-hours these companies will be donating, next to the total time available. Commissioner **Jonathan Adelstein** calls the settlement "The largest collective fine in the history of American broadcasting...it wipes payola off the radio dial and gives lesser-known musicians a chance to reach a wider audience." We hope the Commissioner is right...that with the settlement, payola will disappear. But will the settlement truly benefit terrestrial radio listeners wanting to hear new music and indie*

musicians wanting to make it? Answer: Only if they listen very, very fast. - TK

The settlement reached in the case with **Clear Channel, CBS Radio, Entercom,** and **Citadel** also created a new "Radio Rules of Engagement", crafted by the **American Association of Independent Music**. The rules: 1. Radio should establish, and appropriately publicize, clear and non-discriminatory procedures for music submissions and access to radio station music programmers (to the extent any such access is provided). 2. Radio should not be allowed to sell or barter access to its music programmers. 3. Radio should not form relationships with any music companies, independent promotion companies, or other parties which provide for exclusive access to radio station music programmers, nor should radio restrict access to its music programmers to those who contribute promotional consideration. 4. Radio should not exclude independent promotion companies, as a class, from gaining access to music programmers except for independent promotion companies which are compensated based upon playlist additions or increased spins. 5. Radio shall not ask for or expect, either directly or indirectly, any quid pro quo to play music, including but not limited to: a. Any promotional considerations including cash and prizes, b. Local concert appearances, c. Exclusive relationships with recording artists. 6. Radio (individual stations or their parent companies) shall not act in a coercive manner, make or imply threats to withhold or reduce airplay or make or imply promises to commence or increase airplay, in connection with the solicitation of any promotional consideration, or any promotional consideration promised or given to competitor stations, including concert appearances and artist "exclusives." 7. Disclosure: All cash and non-cash consideration (above a reasonable threshold) made by labels, artists, or their agents shall be confirmed in writing and shall be subject to internal tracking controls, with the information gathered as a result of these controls available to the FCC upon its request. 8. Contest prize recipients to the extent permitted by applicable law must be identified publicly, and confirmed as not employees of the radio station or members of their immediate families or households.

THE KOOKS ARE COMING
"Naive" **HERE!**

**ADDED
KVGs!**

An exclusive agreement has been reached between **Warner Music Group** and the Minneapolis-based **Rhymesayers Entertainment**. The company was started over a decade ago by **Sean Daley** and **Brent Sayers**, and has become one of the country's best hip-hop labels. Said Pres/**ILG & Asylum Records** **Todd Moscowitz**, "Sean Daley and Brent Sayers have been visionaries in the vibrant Twin Cities hip-hop music scene. We are excited to bring them and Rhymesayers into the ILG family to help them further develop and support their impressive roster of artists as well as collaborate on future projects." Sayers chimed in, "More than our desire to be independent, Rhymesayers first and foremost has always wanted to be in a position to help our artists reach their individual goals and aspirations. ILG understood that and has provided us with an extremely unique opportunity to do this. Under this new deal, we can remain as independent as we have ever been while utilizing individual select services as needed. Additionally, if desired and warranted, we have the potential to upstream artists to a WMG label while still playing an integral role in the artists' career. Working with ILG and WMG will allow us to grow like never before and all of us here at Rhymesayers are extremely excited about this new partnership."

Lots of big-name morning-show changes in Twin Cities radio this week: **John Hines**, for 16 years the morning king at KEEY/Minneapolis, announced Wednesday that he's moving down the dial to conservative talker KTLK (100.3 FM), where he will fill the 5-9AM. slot recently vacated by **Andrew Colton**. Hines will make his KTLK debut March 19, after a week of farewell shows on K102, where his Wake Up Crew co-hosts **Donna Valentine** and **Mike Mussman** will continue without him. Down the hall at KDWB, longtime morning co-host **Corey Foley** is leaving *The Dave Ryan In The Morning Show* at the end of April to undertake an unannounced new pursuit. Meanwhile, **Chuck Knapp** and **Jon Engen**, until last summer one of the region's top-rated morning teams on Christian broadcaster KTIS (98.5 FM), resurfaced this week on classic-country BOB (106.1 FM) as hosts of the 5:30 to 9 a.m. weekday show. Knapp has been on Twin Cities radio since 1973. According to the *Minneapolis Star Tribune*, he left last year while going through a divorce. He had said the Bible was clear about people being "not qualified to lead if they can't keep their own houses in order. It doesn't mean that God is through using me, but I can't stay at KTIS." Engen, a minister and KTIS station manager, left, too. The newspaper reported Knapp said he and Engen were drawn to BOB because "it's owned by two Christians" who also own stations in Africa that broadcast country music as a form of outreach to the population, many of whom are Muslim. Knapp said the pair won't take salaries unless their show sells commercials.

The **Milwaukee Journal-Sentinel's** **Tim Cuprisin** wrote this week that when traditional jazz left Milwaukee radio, "Smooth" Jazz completely disappears this week in a format shift at MRA Smooth Jazz WJZO. The old standby's **Kenny G**, **George Benson**, and **David Sanborn** will remain on the playlist, but fans of the station will also hear **Chicago**, **Gloria Estefan**, **Elton John**, and **Billy Joel**. The station won't even use the word "Jazz" anymore, and will go by the moniker "Smooth 93.3."

Clear Channel/Chicago is undergoing big changes this week, as **Darren Davis**, VP of Programming & Operations, announced that "effective immediately, **Elroy Smith** will concentrate his talents solely on Urban AC WVAZ as PD..." Davis went on to mention Smith's history with Clear Channel, including the supervision of programming and operations at Urban WGCI and Gospel WGRB-AM. Additionally, Clear Channel/Chicago has appointed **Kris Kelley** to the position of PD of WGCI. Davis touted Kelley as "a bright talent who comes to us from Clear Channel Urban WJLB/Detroit, where she has served as APD/MD and middays since 1998." Ms. Kelley is from Philadelphia, where she began her career in radio at WAMO/Pittsburgh.
