How important is avoiding an FCC fine for your company? Or at the extreme, the loss of a license? How are you set up with regard to EEO issues that could cost a station dearly, if handled improperly? This summer, the Learning Conference: **Conclave 007 – RADIO UNDER CONSTRUCTION** presents one of its most valuable seminars - **LAW & ORDER, RADIO!** - Friday, June 29th at the Marriott City Center, Minneapolis. In this litigious society, doing business by the (law) book is mandatory. But what ARE those laws? And what steps do any forward-thinking radio station need to take to make sure everything it does, and everything it says on the air, meets the requirements of the law – not to mention, FCC statute? **LAW & ORDER, RADIO** presents noted broadcasting legal expert, **Brendan Holland**, in a speed-reading of what you need to know to keep everything at your station – your morning show, your music selection process, your engineering department – free from the worry of breaking the law, paying outrageous fines – or worse yet – losing your license! Expect a packed 60 minutes of information, including an invaluable Q&A session with one of our industry's top lawyers! The 2007 Learning Conference – June 28-July 1 - offers 4 days of learning, problem solving, networking and fun! The tuition rate is only \$299 – still the lowest price of ANY industry conference – for a limited time, only! Log onto www.theconclave.com to download a registration form, or to register on-line!

Satter, Geslin Join Hall of Fame! Minnesota natives, **Jack Satter** and **Ron Geslin**, were inducted into the *Minnesota Rock & Country Hall of Fame* last weekend in Minneapolis. Satter began his career in the warehouse of famed Minneapolis distributor, **Heilicher Brothers**. He then jumped headlong into the record industry as regional rep for **United Artists Records**. He reached national prominence as Sr. VP/Promotion for **EMI, Manhattan Records** and **Jive Records** – labels that helped launch the careers of artists like **David Bowie, Kenny Rogers, The Backstreet Boys, Richard Marx, and Britney Spears**. Ron began his industry tour as a record shop owner and later, as MD for WCCO-FM (which later became WLTE). His label stops included **EMI, Chaos, Tag** and **BigBeat**. While Sr.VP/Promotion for **RCA Records**, he was responsible for bringing **NSync, Christina Aguilera, and Dave Matthews** to the American public. Jack and Ron join an elite group of

Minnesota-based music industry hall-of-famers like **Eddie Cochran, Bobby Vee, Dave Dudley, and Bob Dylan!** The Minnesota Rock & Country Hall of Fame is located in Albert Lea, Minnesota (home of Eddie Cochran!). Congrats to the newest HOF'ers!

Don Imus is planning to sue **CBS Radio** for the \$40 million left on his contract, citing the language in his contract that notes the company was aware of (and approved of) Imus' "irreverent, topical, and controversial" material. Specifically, the language states, "Company acknowledges that Artist's services to be rendered hereunder are of a unique, extraordinary, irreverent, intellectual, topical, controversial and personal character and that programs of the same general type and nature containing these components are desired by Company and are consistent with Company rules and policies." **Martin Garbus**, attorney for Mr. Imus, confirmed that he has indeed been retained by the radio personality to represent him in a breach of contract suit against CBS.

Rev. Al Sharpton will be attended the **National Action Network's** march protesting racism, sexism, and homophobia in rap music and the images the recording industry supports. The march on May 3 began at 5:30 at **Sony Music** and is being headed by NAN decency director **Tamika Mallory** and councilwoman **Darlene Mealy** of Brooklyn's 41st District. A rally will end the event at Columbus Circle. Last year's Learning Conference keynoter stated, "We need to deal with N-word and the misogyny of call our women b***hes and hoers. No other community is disparaged by these record companies but us."

The GM of **Clear Channel's** Rochester, MN cluster has told the **Rochester Post-Bulletin** that the group is included in a larger sale to **Dean Goodman's Goodradio.TV**. **Bob Fox** says he met with Goodman last month and that negotiations are still going on, but the Rochester cluster's inclusion in the deal is a sure thing. Fox said, "We're excited about the sale. Goodman saw what we were doing and liked it when he visited Rochester." The stations in the cluster include Sports KWEB-AM, Country KMFX-AM/FM, Classic Rock KRCH, and Spanish Adult Hits KNFX-AM.

Matt Hudson's Music Test America is now offering radio a new form of stealth viral local marketing. After more than six months of beta testing, the company has developed a proprietary system to build custom MySpace® web sites for local radio stations that gathers thousands of 'friends' for each station in a short time. Once each site is built, the station can communicate with all it's friends about promotions, sales, and other station activities, with one mouse click. Hudson, President/CEO, says "There are now 57 million MySpace users in America. Over 50% are ages 35+. In the new world of radio it's difficult to keep top-of-mind. Now, you can be an integral part of thousands of people's daily lives through MySpace. Our system is designed to lure your friends back to the station's web site to increase traffic and add value for your web customers. We're generating about 200 new friends a day for each station." Ask Matt about it when you see him at the Conclave next month.
