Learning Conference Teaches Radio How To Use New Technologies! Looking for the ways and means to make your station competitive in a world filled with new and exciting technology choices for your listeners? Well, **CLICK ON THIS!** The 2007 Learning Conference – CONCLAVE 007: RADIO UNDER CONSTRUCTION - presents **CLICK ON THIS!** – a session designed to reveal how to brand and market your station by making a potentially competitive technology an ally! At Click On This!, you'll learn how Streaming, Texting and Podcasting can grow a non-traditional audience for your station, no matter the market size. Moderator **Tom Webster** / Edison Media Research will share the latest data and trends on consumer's use of these technologies. **Margaret Shiverick** / MJI Interactive lays out the rationale, ease and monetizing strategies for Podcasting. **MSnap's Corey Cuddleback** shares examples of promotions and revenue-generating opportunities for stations using Text Messaging. And **Columbus Radio Group's Jim Bezak** will cut to the chase on the process of streaming, ad insertion, RIAA fees and the other complicating factors that often stand in the way of choosing to stream. **CLICK ON THIS!** happens Saturday morning June 30th at the Marriott City Center Hotel/Minneapolis! For the complete 2007 Conclave Learning Conference agenda, please visit <http://www.theconclave.com/conclaveagenda.asp>.

In the annual **Technology Poll** from **Jacobs Media**, which polls over 25,000 rock radio listeners across the country, shows ups and downs in store for **HD Radio**. On the positive side, the marketing juggernaut launched by HD radio appears to be successful; 45% of listeners know what it is, compared with 18% in '06. However, only 1% of the polling sample actually owns HD, although there is interest in buying one of the \$150-200 models. One in ten noted they would likely buy a receiver at this point, and 1/3 said they were somewhat likely to do so. Jacobs Media Pres. **Fred Jacobs** commented, "The radio industry has a lot of work to do before HD Radio becomes a part of American's technology mainstream. The industry has done a nice job raising awareness. But HD Radio remains a foreign concept to most people."

RADIO UNDER CONSTRUCTION

Citadel Broadcasting is doing battle in the courts in Idaho this week, accusing radio company **Peak Broadcasting** of stealing confidential company information. Citadel, which owns six stations in the Boise area, says the Chief Executive of Peak, a former executive at Citadel, and four other employees of Citadel who now work for Peak, are responsible for the theft. Peak is new to the Boise area, with the purchase of six former **Clear Channel** stations last March. Several stations have competing formats with Citadel. The lawsuit was filed last month, and alleges that Peak CEO **Todd Lawley** "initiated the scheme to raid the ranks of Citadel Broadcasting employees (and, thereby, cripple Citadel Broadcasting in a host of markets) by recruiting and luring away key employees and managers." Apparently, one manager took a disk from a Citadel computer that contained customer and market data, plans, projects, revenues, expenses, and promotional materials as well as monthly sales goals, plans, projections, and results. It claims that this information in the hands of competitors is "devastating" to the company. Peak denies the allegations, claiming that nothing illegal took place, and any information they have was "readily available" in the public domain. Counsel for both parties was not available for comment. Citadel is demanding compensatory damages of an undetermined amount, but to definitely exceed \$10,000. They are also asking for an award of any profits received from using the Citadel information, and a permanent injunction against Peak and its employees from using any information obtained from Citadel.

The sale documents from **Clear Channel** have been filed with the **FCC**, which will transfer several Midwest stations to **Dean Goodman's Goodradio.TV**. The price looks to be upwards of \$452.1 million. Midwest markets in the deal include Bismarck, ND; Chillicothe, OH; Eau Claire, WI; Findlay-Tiffin, OH; Lima, OH; Marion, OH; Minot, ND; Ogallala, NE; Rochester, MN; Sandusky, OH; and Sioux City, IA.

Lincoln Financial's Sports KKFN-AM and Top 40-Rhythm KQKS/Denver are launching their newest community service project by asking listeners to "**Pack the Truck**" with non-perishable food items and toiletries destined for the victims of the tornado that left Greensburg, KS in devastation. The event took place on Tuesday at the King Soopers in Highlands Ranch, and all donations are through the **Kansas Food Bank**. PD Tim Spence noted, "To see the pictures of the devastation and the fact these people need our help, I'm just glad to be a part of such an undertaking. The FAN staff has done a great job in helping to make a difference." KS 107.5 PD **Cat Collins** added, "KS 107.5 is proud to team up with our sister station, Sportsradio 950 The Fan, to help provide food for the victims of the tornado devastation in Greensburg, KS. My entire on-air team has chipped in to spend time at the broadcast at King Soopers, and they are telling me the community response has been terrific. Once again, the listeners of KS 107.5 have shown they have huge hearts."

15 new markets were added to **The HD Digital Radio Alliance** this week, a major milestone in its rollout in top 100 markets, which began only 18 months ago. In the Midwest, they've added Des Moines,

Madison, and Colorado Springs. The Alliance issued a statement saying, "The momentum of the rollout has been unprecedented, making the achievement of the top 100 markets all the more significant. The top U.S. radio broadcasters came together in December 2005 to form the HD Digital Radio Alliance in part to oversee the market-by-market HD2 format selections in the top 100 markets. Since that time, radio has morphed into a digital music force propelling a massive infusion of new and eclectic content on local radio stations by Alliance-member broadcasters — all in crystal-clear digital sound with no subscription fee. The result has been a lifestyle transformation for consumers and a powerful spur to retailers, device manufacturers and automakers to catch the consumer phenom that is HD digital radio. Now, in a development representing no small feat, the milestone of the top 100 markets has been reached."

The 2007 Learning Conference - **Conclave 007: RADIO UNDER CONSTRUCTION** - will be held at the Marriott City Center Hotel in Minneapolis, beginning Thursday June 28 and concluding on Sunday morning July 1 — over three days of learning, problem solving, networking and fun! The tuition rate is only \$299 — still the lowest price of ANY industry conference — through Thursday, May 31! Or take advantage of the special construction group rates of \$550 for two, \$750 for three and \$900 for five — which represent great bargains for the nation's premiere Radio Learning Conference. Get your work crew together now and have even more money to spend in Minneapolis. All registrants are eligible for special discounted sleeping room rates at the host hotel, Marriott City Center. Rooms that normally list for \$209 or more are available for \$123 per night (single/double plus tax) until the inventory is gone. That means a Conclave attendee can save over \$250 in hotel costs over the three-day Conference weekend! But rooms can only be secured by registering for the 32nd Annual Learning Conference — when these rooms are gone, they're gone! So, register today!

Changes. **Jack Lawson**, former PD at **Clear Channel** Classic crock WBFX/Grand Rapids, is leaving his position. There's no news on his replacement, but expect updates...**Milwaukee Radio Alliance** Alternative WLUM/Milwaukee Imaging/Production **Brad Dougherty** and overnight jock **Patrick McGraw** are leaving the station... Morning co-host at **Journal Talk** WTJM-AM/Milwaukee **Ken Herrera** has left the station, and Journal has confirmed that Hot AC WKTI **Gene Mueller** is his replacement, joining co-host **John Jagler's** the "**Wisconsin Morning News**." Mueller was with the station since 1982, sharing duties with recently retired Bob Reitman, and was most recently heard solo. KWLI/Denver afternooner **Mathew Blades** will take Mueller's place at WKTI, and KSD/St. Louis voice **Erin Austin** will come on as co-host. The new show starts May 29 with the station's "A to Z Memorial Weekend." ...**Premiere Radio Networks** has partnered with **Reelworld** to start offering **Production Vault** to five formats: Top 40, Urban, AC, Country, and Hot AC. The Vault is a comprehensive, continuously updated toolkit of production work parts that provides sweeper and promo templates, listener and artist drops, exclusive beds, topical and seasonal content, and more.

Advertisers have started pulling out of “**Gunny Bob**” Newman’s show at **Clear Channel** Talk KOA-AM/Denver, reports **The Denver Post**, after a liberal advocacy group criticized Newman’s comments about Muslims. **Excel Roofing**, **Ralph Schomp Automotive**, and **Three Tomatoes Catering** have requested their spots be taken off the air during Newman’s timeslot. Newman made the comment that all Muslim immigrants be fitted with a GPS tracking bracelet, and the group is now urging advertisers to join a boycott of the station. **Kris Olinger**, Dir./AM Programming of the station told the **Post** that Newman has not been reprimanded and that he “stated his opinion—yes, it is an extreme opinion, but it was his opinion.” She then stated that it’s common for advertisers to specify that their ads not air during certain programs.

Paul Harvey, legend of ABC radio, will receive an honorary degree from **Washington University** in St. Louis this week. It marks his 14th honorary degree, and is his latest award honoring his nearly 75-year career. He’s also received the Presidential Medal of Freedom and five Marconi Awards. Paul’s wife and producer of his show, **Lynne “Angel” Harvey**, will not be accompanying the radio personality. She’s currently battling leukemia and is not well enough to travel.

“**KMOX Support Our Troops**” rally, presented by **CBS** Talk KMOX-AM/St. Louis, will take place next Thursday at the **Schnucks** supermarket. “**Total Information AM**” and **Charlie Brennan** will both air live from the rally, while volunteers will collect and pack at least 500 boxes of toiletries, snack, and other supplies for our troops. Donations are also being collected for shipping costs, and can be dropped off or mailed to KMOX Radio Support our Troops, One Memorial Drive, St. Louis, MO 63102. **Schnucks**, **Teamsters International, Joint Council 13**, and **A Soldier’s Wish List** are all sponsors of the event.

The “**Big 89 Rewind**” will take place at **ABC** Talk WLS-AM/Chicago on Memorial Day, which recalls the station’s Top 40 “glory days,” reports the **Chicago Sun-Times Roger Feder**. The show will feature former WLS personalities **Larry Lujack**, **Fred Winston**, **John “Records” Landecker**, **Jeff Davis**, **Chris Shebel**, and **Tom Kent**, as well as news voices **Lyle Dean**, **Catherine Johns**, and **Gil Gross**, and sportscaster **Les Grobstein**.

The proceeds always benefit breast cancer research. KS95 lined up 850 team members, winning the “**Team Challenge Award**,” which culminated in popular host **Moon**, of the “**Moon & Staci Show**,” getting his head shaved because they bested last year’s team total.

Even More Changes. Current **Schurz** Top 40 KRCS/Rapid City, SD afternoon jock **Maui** is going back down to Texas, joining up with **Wilks** Top 40/Rhythmic KBTE/Lubbock. Before coming up to the Black Hills, Maui was at **CBS** Top 40/Rhythmic KQBT/Austin. ..**Matt Luecking**, former MD at **Crossroads Communications** Hot AC WBOW/Terre

Haute, is coming back to the station on Saturdays from 10-3p. He will still carry on his duties at WZPL/Indianapolis....**Arnoldo “El Tigre” Gonzalez** is getting promoted to PD from Asst. PD at **Journal Broadcast Group’s** Spanish KYQQ/Wichita. He’s replacing **Beverlee Brannigan**, who stays on as OM of the cluster. She noted that a new Asst. PD will not be named in the near future.

As we approach the 32nd annual Learning Conference in June, it should be remembered that the event would not be happening if it were not for the support of major sponsors of the Conclave, like Platinum Partner – **Radio & Records**. Partners **Arbitron**, **AudioXChange/BitXChange**, **Brown College**, **Edison Media Research**, **Envision Radio**, **Jones Radio Networks**, **Lincoln Financial Media**, **McNally-Smith College of Music**, **MediaSpan**, **Megatrax**, **MusicMaster**, **Nielsen Entertainment/BDS Radio**, **Premiere Radio Networks**, **PromoSuite**, **RCS**, **Specs Howard School for Communication Arts**, and **Troy Research**.
