DAVID REHR TO KEYNOTE 2008 LEARNING CONFERENCE! This week, the **Conclave** announced that **National Association of Broadcasters** President and CEO, **David Rehr** will be a keynote speaker at the 2008 Learning Conference: **At the Crossroads**. The 33rd annual conference is slated for June 26-28 in Minneapolis. The announcement of David Rehr's speech marks the first time the NAB has been featured at the Conclave. Rehr most recently unveiled a comprehensive marketing campaign to reposition radio for a vibrant and successful future. The campaign, dubbed the 'Radio 2020' initiative was unveiled during Rehr's keynote address at The NAB Radio Show that took place in

September in Charlotte. David Rehr joined NAB as president and CEO in December 2005. During his first year at the organization, Rehr made it one of his priorities to visit directly with, and obtain input from, as many station groups and individual local broadcasters as possible. Rehr, who has a doctorate in economics from **George Mason University**, has been named to *Washington Life* magazine's "Power 100" list, and is annually listed as a "Top Association Lobbyist" by one of Congress' "must read" publications, *The Hill*. In addition, after just seven months at the NAB, *Radio Ink* magazine named him the 21st most influential person in radio. His appearance at the Learning Conference marks a return of sorts for Rehr: he is a graduate of **St. John's University** of Collegeville, MN. *Comment: For a myriad of reasons, not the least of which include emerging technology, changing business models, and the furtherance of creative compelling content, it's clear that radio has arrived at a crossroads (more on that, later). Mr. Rehr has been very vocal in his drive to address radio's challenges and opportunities and the Conclave is right-*

fully excited that he has chosen the Summer Learning Conference to highlight the NAB's plans to help radio proceed down the best road. Both the Conclave and the NAB are dedicated to the success of broadcasters everywhere. It should come as no surprise that the two organizations come together at this very important time, in what we consider a very important place. - TK

Quietly announced early this week was word of the theme for next summer's **Conclave Learning Conference: AT THE CROSSROADS**. The Conclave chooses its annual themes carefully because each theme helps to focus the curriculum at the summer's Learning Conference. It's been apparent for several years that radio and its public is at a rapidly changing crossroads of important sociological, technological and psychological change. In the coming weeks, expect announcements from the Conclave as to how the Learning Conference will uniquely address the choices reflected at confluence of this important crossroad by providing multi-paths of education next June 26-29 at the Marriott City Center in Minneapolis. Stay tuned for details, which will also be announced on www.theconclave.com.

Wisconsin Sen. **Russ Feingold** (D-WI) told **FCC** Chairman **Kevin Martin** he's fearful the chairman's rush to judgment about media ownership rules is masking a "preconceived agenda". The senator writes, "I am concerned that the commission appears to again be rushing this proceeding with inadequate or selectively chosen information." And he claims the FCC, "may even be selectively collecting and releasing information to support its pre-conceived agenda." Said Feingold, "I ask the FCC to, at a minimum, complete the separate localism proceeding prior to making decisions on the current media-ownership rules. This proceeding should provide ample opportunity for the public to comment on any conclusions or proposed rule changes." Feingold accused the Chairman of admitting "to deciding not to release two reports that raised questions about potential negative impacts from further media consolidation," then quoted a report by the FCC's Office of Inspector General in which a previous FCC Media Bureau Chief states he didn't want to release the "Review of the Radio Industry, 2003" report "unless the story can be told in a much more positive way," and adding, "This is not the time to be stirring the 'radio consolidation' pot." The senator strongly supports neighboring ND Sen. **Byron Dorgan's Media Ownership Act**, requiring a separate localism proceeding and the formation of a diversity task force before the FCC can vote on any changes to the ownership rules.

WRIC/Metropolis, IL – which has come under fire for copyright infringement in the past – is the subject of a federal lawsuit, filed 11/15 in **U.S. District Court** for the Southern District of Illinois. **UN Media** and **Samuel K. Stratemeyer**, the owner and GM respectively of WRIC are being sued by several plaintiffs, including **Warner Music Group** and **Sony Music Entertainment** for the unauthorized airing of songs like “Somebody’s Baby,” Give Me One Reason,” “All Night Long” and “All My Life.” Warner, Sony and others who own the songs are giving the radio station 10 reasons why it “willfully infringed” on copyrighted material. The plaintiffs contend WRIC plays copyrighted songs from the repertory of **ASCAP** without a license. And it’s happened before, according to wording in the suit. “In 1993, members of ASCAP filed a virtually identical copyright infringement action against Defendants, **Tauripin Tunes**, et al. v. Sun Media, Inc. and Samuel K. Stratemeyer...That action was settled when Defendants agreed to pay a stipulated amount and execute a new ASCAP license for WRIC-FM, and comply with the terms and conditions of their ASCAP license agreement.” According to the newly filed suit, the station eventually paid a portion of the stipulated settlement but never secured an ASCAP license.

Lincoln Financial’s KYGO/Denver’s **Kelly, Mudflap, and JoJo** hosted their seventh annual KYGO *Feed the Need Radiothon* for the homeless in the care of the **Denver Rescue Mission** yesterday morning from 5:30 until 10:00. KYGO listeners teamed up with the morning show to raise \$37,952. That’s almost \$8,500 per hour. Overall, the annual KYGO event has generated over \$200,000. The money raised for The Denver Rescue Mission is primarily used in feeding the homeless that are involved in programs at the mission.

The Buzzard has landed! Former WMMS/Cleveland PD **John Gorman** has published a book *The Buzzard: Inside The Glory Days Of WMMS And Cleveland Rock Radio*. And John should know. He was PD from 1973-86, and apparently kept good notes. In the book, he credits his staff for the station’s success in this “tell-all” about one of rock’s seminal radio stations. It’s on sale now at amazon.com.

Northwestern College Christian AC KTIS/Minneapolis-St. Paul concluded its celebration of *Clergy Appreciation Month* by donating a car to a local pastor nominated by listeners and church leaders. The grand prize? A one-year lease on a new **Toyota Camry**. The prize also included a full year’s worth of gas and maintenance. The winner was Pastor **Patricia Picone** from Urban Life Christian Center in Minneapolis.

**Conclave 007: RADIO UNDER CONSTRUCTION
Greatest Hits!**
