Is Radio really losing its value? According to a national telephone survey by **American Media Services**, 64% of people turn on the radio when they get into the car and almost 75% say they listen to radio at least once a day. These are significant findings that once again demonstrate how much Americans rely on the radio for music and entertainment," said AMS Chairman **Edward F. Seeger**. Some specifics of the latest AMS Radio Index include the following: Daily listenership was 64% in the latest survey, compared with 61% this past March, 63% in September 2007 and 64% in April 2007. Radio remains the #1 way that Americans learn about new music. 47% of Americans said it doesn't matter to them whether their radio program is originating locally. Only 28% said it mattered a lot. 51% say they usually stay tuned to their favorite music station when commercial breaks come on, a statistically insignificant change from 53% six months ago. Only 7% said they turn off the radio, and 38% said they change to another station.

New research by **Mark Kassof & Co.** reveals that 67% of 18-64 year-olds have heard of HD Radio up from only 38% in 2006. Consumers' understanding of HD Radio has also grown. Now, 21% indicate HD Radio delivers higher quality sound, versus 17% in 2006. Significantly, 8% now volunteer that HD Radio delivers more stations or choices, versus only 1% two years ago. On the downside, this year's research also finds continued misconceptions about HD Radio. Now, 7% indicate that HD Radio is satellite radio, up from 3% in 2006. And 3% think they receive HD Radio even though they have not purchased an HD-capable receiver. The research findings were based on 688 telephone interviews in the U.S., conducted from September 4th-7th.

**Announcing TalenTrak 2008!** Chicago's TalenTrak is just around the corner: Saturday, November 8<sup>th</sup> at **Columbia College's** University Center (525 S. State St). TalenTrak is the **Conclave's**

one-day air talent seminar designed to improve the performance of any and all personalities who attend. The day begins with a series of one-hour highly-focused seminars hosted by WLUP/Chicago PD **Bill Klapproth**, breaks for lunch with a special keynoter TBD (in the past, TalenTrak has featured great keynoters like **Tom Barnard**, **John Records Landecker**, and **Danny Bondaduce!**), and then launches into the all-important aircheck clinic where programmers and consultants individually critique airchecks of all TalenTrak students! The price for this special day of learning? Just \$49 (\$39 students) until October 31<sup>st</sup>. If you're coming in on Friday night or staying Saturday night, stay at the nearby **Travelodge Hotel/Downtown Chicago**, 65 E Harrison St., Chicago, IL, 60605; phone 312-376-148; email [mailto:travelodgechicago@aol.com](mailto:mailto:travelodgechicago@aol.com). Ask for **Darren Andrews**, tell him you're with the Conclave and will be attending TalenTrak and you'll be offered a junior suite with kitchenette for \$155 + taxes while their inventory lasts. For details and to register, visit <http://www.theconclave.com>.

**Arbitron's** PPM ratings system is now under investigation by NY State Attorney General **Andrew Cuomo** due to pressures from radio owners, including **Inner City Broadcasting** and a coalition of Spanish broadcasters. Cuomo's letter to Arbitron says, "A significant and improper decline in ratings under the PPM methodology could cause minority stations to suffer drastic reductions in advertising revenue. A full investigation of Arbitron's deployment of the PPM methodology is warranted before these sudden — and possibly irreversible consequences — are imposed on minority radio stations." Cuomo says his investigation will focus on whether Arbitron is properly measuring all listenership. He is asking Arbitron to supply all PPM-related records back to 2003. Arbitron SVP/Investor And Press Relations **Thom Mocarsky** responded: The company maintains that its Portable People Meter radio ratings service is fair, reliable and fully represents the diversity of New York radio markets. The media industry has demanded a more precise and credible measurement tool for radio just as they have for other media. The difference between PPM ratings and diary ratings is a function of the survey tool, not the sample. PPM collects actual exposure; the diary, recall-based "habitual" behavior; \* The paper-and-pencil diary allows loyal listeners, of any and all formats, to overstate their habitual listening; Broadcasters of all formats, including Urban and Hispanic, who have embraced PPM, have improved their audiences and their standing in the marketplace; "The media industry should be concerned about the attempts to supplant or short-circuit the **Media Rating Council** accreditation process. The MRC was founded at the behest of Congress. Throughout its 40-plus years of service, the MRC has been a driving force behind the vast quality improvements in the ratings services that research companies have been delivering to the advertising and media industries," said Arbitron Chairman/Pres./CEO **Steve Morris**.

**Arbitron** will continue PPM monitoring in Houston as Hurricane Ike heads toward the coastal city. Arbitron said, "As mandatory evacuations are implemented for Houston-Galveston with Hurricane Ike nearing the Texas gulf coast, Arbitron is keeping a weather eye on the PPM panelists in that market. "We are also closely monitoring the Beaumont-Port Arthur, Corpus Christi and McAllen-Brownsville, TX, and Lake Charles, LA markets, suspending placement and follow-up calls to respondents as their mandatory evacuations are implemented. Should the storm take a different path, we will adjust accordingly."

**Salem** owner **Ed Atsinger** and seven other hosts on Talk KRLA-AM/Glendale-Los Angeles are being sued by a LA man, alleging the station defrauds the public and misrepresented itself to the FCC by featuring only conservative hosts and "Republican Issues." **David Birke**, a "Democrat", alleges that KRLA "has never allowed a Democrat to host a show; uses call screening to 'suppress' calls from Democrats and violates campaign finance laws by providing free media for advertising, attacks on Democrats, fundraising and promotion exclusively to GOP officials and candidates." The FCC has consistently declined to interfere in programming decisions since the abolition of the Fairness Doctrine and does not require stations to balance programming. *Comment: Using the same logic, Air America violates the same 'free advertising' codes Birke contends Salem abuses in his suit. If Salem is using the stations to directly raise money for candidates, that could be a donkey of a different color.- TK*

Republican Presidential candidate **John McCain** and the **Republican National Committee** are facing a lawsuit in California federal court over their use of **Jackson Browne's** song, "Running on Empty," in a campaign advertisement. Browne alleges the ad falsely suggests that Browne endorses or is associated with McCain and the Republican Party. Browne says McCain and his agents have engaged in a consistent pattern of unauthorized use of copyrighted songs in an effort to boost the candidate's image. McCain ads have featured songs by **Franki Valli**, **ABBA** and **John Mellencamp**, all of whom have demanded that the senator stop using their songs.

The **FCC Enforcement Bureau** is investigation potential violations against **M.R.S. Ventures**/Cleveland, MS stations WDSK-AM, WDTL, WRKG and WZYQ, alleging a failure to provide access to its stations' public files; failure to maintain documents in its files and transferal of control of the stations to **Andy Hodges** without authorization.

The **Country Music Association** announced the final nominees for the 42nd Annual CMA Awards. Country stars **Rascal Flatts** and **Taylor Swift** revealed the nominees in several categories during a live broadcast from New York City's Times Square on **Good Morning**

**America**. Radio nominees from the neighborhood include: **Major Market Personality** "The Dr. Don Morning Show" (**Don Carpenter, Steve Grunwald, Rachael Hunter, Jason Raithel**) - WYCD/Detroit, "Jesse and Shotgun In The Morning" (**Jesse James, Randy Shannon**) - KWLI/Boulder, "Kelly, Mudflap and Jojo Morning Show" (**Kelly Ford, Steve "Mudflap" McGrew, Jojo**) - KYGO/Denver. **Large Market Personality** - "The Moo Crew with Karen, Scott and Radar" (**Karen Dalessandro, Scott Dolphin, Tony "Radar" Hess**) - WMIL/Milwaukee. **Medium Market Personality** - "Andy & Alison and the Morning Crew" (**Andy Ritchie, Alison West**) - WIVK/Knoxville, TN, **Carol Hughes** - KFDI/Wichita, KS. **Station Of The Year/Large Market** - WFMS/Indianapolis, WUBE/Cincinnati. **Station Of The Year/Medium Market** - KFDI/Wichita, KS. **Station Of The Year/Small Market** - WFYR/Peoria, IL. The winners of the 2008 Broadcast Awards will be notified in mid-October and recognized at the awards in Nashville.

"Radio's Best Friend," **Art Vuolo**, releasing a DVD with his footage of **Citadel Talk WLS-AM/Chicago's** Memorial Day "Big 89 Rewind" event, featuring appearances by a parade of WLS legends. The lineup this year included **Chuck Knapp, Larry Lujack** and **Tommy Edwards, Fred Winston** with newsman **Lyle Dean, Bill Bailey, John Records Landecker**, and **Jeff Davis**, with news and sports anchors including **Gil Gross, Karen Hand, Catherine Johns, Linda Marshall, Les Grobstein**, and **David Jennings**. A preview has been posted on **YOUTUBE** (search for "art vuolo") and the whole DVD is available for purchase at <http://www.vuolovideo.com> listed under "Reunions."

**MusicMaster** has now partnered with **Triton Media** to offer radio a barter option on its software and services. "Our a la carte pricing model has always benefited the needs of our customers and the changes taking place in the broadcast industry," **A-Ware Software VP/COO Mark Bolke** said. "With the economic realities facing broadcasters today, we feel this is yet another option we can provide customers interested in MusicMaster for Windows."

**Envision Radio Networks** and **Comstar Network** have come together to launch **SmartSite Systems**, a new community-based web portal with daily content to deliver additional income to a radio station's bottom line. The official debut for SmartSite will be at the annual **NAB** convention in Austin, TX. "After two years of studying radio Internet business models all across North America, we discovered the secret of how two small market broadcasters are quietly generating over \$2,500,000 in Internet sales a year," **Comstar Network Pres. Sandy Davis** said. "SmartSite has been specifically designed for radio stations to help generate new revenue," Envision Radio Networks Pres./CEO **Danno Wolkoff** added.
