Are you ready for your community's next tornado, flood, or any other unexpected natural or man-made calamity? On Wednesday, June 16<sup>th</sup> at 3P EDT/2P CDT, the Conclave presents its next webinar – **"Disaster Planning: Do You Have Your Sheets Together?"** The webinar is free, but pre-registration is necessary by clicking on <https://www1.gotomeeting.com/register/496903520>. The questions asked in this webinar are simple, but answers are complex: What if a massive disaster hit your community? An earthquake, hurricane, tornado, flood, train derailment or an oil spill? Is your station ready to warn your community quickly and efficiently? Is your station prepared to help in the aftermath? If the disaster knocks your station off the air, do you have a backup strategy? If that strategy doesn't work, do you have a Plan B? Join WTOP-FM/Washington, DC News Director **Mike McMearty** and WCCO-AM/Minneapolis PD **Wendy Paulson**, broadcasters who have developed action plans to deal with disasters in their communities like serial blizzards, killer tornadoes and bridge collapses. Together, they will share their insights and offer invaluable direction in preparing for the unforeseen. With a very recent history of tragedies befalling America's Gulf Coast in the wake of the oil spill, tornadoes that continue to rip through the Southeast, flooding in Nashville, and a hurricane season that has just started, radio doesn't have to look far for disaster. Are you prepared to respond? Are you sure? With or without a disaster plan, you'll want to be part of this webinar. Conclave webinars are coordinated and produced by Conclave Board member and air talent for The Arch/St. Louis, **Jay Philpott**.

The Conclave and RAIN (Kurt Hanson's *Radio And Internet Newsletter*) will be giving broadcasters, Internet radio entrepreneurs, and sales/digital visionaries another reason to convene at the **35th annual Conclave Learning Conference** for engaging sessions and presentations regarding programming expertise, business strategies, and technical and legal aspects of the business during **RAIN Summit Midwest**, Saturday afternoon, July 17th, at the **Doubletree Park Place Hotel** in Minneapolis. Says RAIN founder Kurt Hanson, "I'm thrilled that we're going to be working with the Conclave to spend a half-day together looking at how attendees can best position themselves for the exciting new future. My fervent belief is that after three previous 'Golden Ages' of radio - the entertainment programs of the '30s and '40s, the 'AM Top 40' era of the '60s and '70s, and the 'AM Talk / FM music' era of the '80s and '90s - we're on the cusp of entering a fourth 'Golden Age' of radio, driven by Internet-delivered forms that will offer consumers variety, personalization, and ubiquity of access. In this new era, there are going to be huge opportunities for radio professionals - in marketing, in sales, in programming, and in management - plus loads of exciting entrepreneurial opportunities as well." Those registered for the Conclave will automatically be registered to attend the RAIN Summit Midwest. We are also offering special day pass registrations which will allow folks to attend the RAIN Summit Midwest - as well as our other sessions scheduled on Saturday July 17th - for only \$179. The RAIN Summit Midwest has been made possible thanks to the generous contributions of **AllAccess.com** and **Coleman Insights**.

**Saga** Smooth Jazz WJZX/Milwaukee finally flipped to Classic Country as "Big Buck Country 106.9" after stunting since Memorial weekend. Remember, in last week's *Tattler*, there were rumors that **Clear Channel** flipped "The Brew" to Top 40, beating Saga to it. This new station is kicking off with 10,000 songs in a row, playing hits from Country legends from the late '70s, '80s and early 1990s. After the 10,000 songs have played, the new on-air staff will be revealed. **Lakefront Communications** (a subsidiary of Saga) Pres./GM **Tom Joerres** says, "It's been almost a quarter century since Milwaukee has had a Country option

to 106.1 from another Milwaukee based FM radio station. After recent market research, it was confirmed that the Milwaukee area has an appetite for a station like Big Buck Country 106.9, playing all the county legends that have been forgotten. It is truly a destination where ALL the good country songs have gone." "Big Buck Country" PD **Lauri Jones** added: "Milwaukee is a red, white and blue-collar city and deserves a radio station dedicated to Country legends. Our listeners will reminisce with songs they know and love but that haven't been on the radio for the past several decades." Saga VP/Programming **Steve Goldstein** also commented: "It's been curious that Country radio has no place for the incredible music of the last 30 years. Big Buck is not the history of Country music, but rather the top songs of the '70s, '80s and '90s." The stations' new website is currently under construction at [www.bigbuck1069.com](http://www.bigbuck1069.com), but for now, they are streaming online at the old website, [www.smoothjazz1069.com](http://www.smoothjazz1069.com). The former Smooth Jazz format can now be heard on the station's HD2 channel, streamed online at [www.columbusjazz.com](http://www.columbusjazz.com).

**Bonneville AC WILV/Chicago** rebrands itself as Oldies "Rewind 100.3," playing the "Feel Good Favorites from the '80s and more!" The station has been stunting with "Rewind" weekends before making it official on Monday.

**Green Bay Packers** quarterback **Aaron Rodgers** regrets his harsh words Wednesday, blasting **ESPN Monday Night Football** commentators **Tony Kornheiser** and **Ron Jaworski** in an interview with **Steve "Homer" True** on **Good Karma Sports WAUK-AM/Milwaukee**, although he did not retract the substance of his comments. Rodgers says the radio was an "inappropriate" venue for his comments and meant no disrespect. Rodgers said **Dennis Miller** (now also a radio talker) was "ten times better" despite being "one of the worst Monday Night Football guys, ever... His stuff was actually funny. Tony's stuff wasn't funny at all." Rogers dug into Kornheiser, saying, "I don't think he knows anything about sports." On Jaworski, Rodgers said his segment discussing Rodgers' fundamentals was "the worst segment in the history of TV" and that Jaws had "ripped" Rodgers before his drafting and then told him "How

great I was. I was like, 'I know your song and dance.'" Kornheiser says he thought Rodgers' hostility came from the TV analysts criticizing the Packers for letting **Brett Favre** go in favor of Rodgers, "But if he thinks I'm no good, he wouldn't be the first. Or the last."

Congrats to the staff of **Bonneville Adult Hits WARH**, sister Country **WIL** and Sports **WXOS/St. Louis** for taking home top honors in three categories with the most awards of any broadcaster in Missouri this past weekend at the annual **Missouri Broadcasters Association**. WARH won the "Special Programs" Award for the "Hedgehog Day" show. WIL was recognized for their **St. Jude Radiothon** and their anti-performance tax public service announcement. WXOS took the award for "Best Original Programming" with their "Hometown Heroes" series, and for the "Best Website." WIL's **Cornbread** of the "Cornbread Morning Show" took the "Best DJ" honors.
